

CITY OF YELLOWKNIFE

MEMORANDUM TO COMMITTEE

COMMITTEE: Governance and Priorities

DATE: March 22, 2021

DEPARTMENT: Economic Development & Strategy

ISSUE: Whether to accept the proposed Implementation Plan for recommendations in GROW: Yellowknife Food & Agriculture Strategy.

RECOMMENDATION:

That Council adopt the Implementation Plan and response to recommendations arising from GROW: Yellowknife Food & Agriculture Strategy.

BACKGROUND:

Following City Council endorsement of the Yellowknife Food Charter in 2015, the City of Yellowknife issued a Request for Proposals (RFP) in 2018 for work to develop a Food and Urban Agriculture Strategy to help work strategically towards vision and principles presented in the Charter. Urban Food Strategies was awarded the project and developed 'GROW: Yellowknife Food & Agriculture Strategy' ('the Strategy'). The Strategy was developed after extensive consultation with residents and stakeholders by means of workshops, one-on-one interviews, PlaceSpeak online forms, and a community forum. The Strategy was finalized in April 2019 and was adopted for information by Council on May 13, 2019.

The Strategy contains 39 action items that are organized into five goals:

- Support the sustainable growth of urban agriculture and related activities;
- Enhance access to urban agriculture basics;
- Support community learning opportunities around food and agriculture;
- Encourage the growth of the Yellowknife food and agriculture economy; and
- Build internal capacity for successful implementation.

The intent of the Strategy is to create a long-range plan for increasing community and commercial opportunities in Yellowknife's urban food and agriculture system. Building on the vision and principles in the Yellowknife Food Charter, the intention of GROW includes:

- Growing the local food economy;
- Growing connections to land, histories, culture and people;

- Growing the level of food security;
- Growing the amount of food that is grown, raised, hunted, fished, and foraged; and
- Growing links to regional and territorial food and agriculture initiatives, programs, and funding.

The Implementation Plan identifies an approach to implementing recommendations in the Strategy. Administration will provide a written update annually to Council on the implementation of GROW.

COUNCIL POLICY / RESOLUTION OR GOAL:

Council Goal #1: Growing and diversifying our economy.

Council Goal #3: Ensuring a high quality of life for all, including future generations.

Council Goal #4: Driving strategic land development and growth opportunities.

Council Motion #0224-15: That Council endorse the Yellowknife Food Charter

Council Motion #0125-19: That Council adopt for information the Yellowknife Food and Agriculture Strategy (GROW); and direct Administration to draft a response to GROW and report back to Council.

APPLICABLE LEGISLATION, BY-LAWS, STUDIES, PLANS:

1. City of Yellowknife Economic Development Strategy 2020-2024;
2. Yellowknife Food Charter;
3. GROW: Yellowknife Food and Agriculture Strategy;
4. Business Licence By-law No. 3451, as amended;
5. Zoning By-law No. 4404, as amended;
6. Land Administration By-law 4596, as amended;
7. Dog By-law No. 4755, as amended; and
8. Development Incentive Program By-law No. 4534, as amended.

CONSIDERATIONS:

Details of GROW: Yellowknife Food & Agriculture Strategy

GROW is the short-form name for the Yellowknife Food and Agriculture Strategy, a long-range plan for increasing community and commercial opportunities in Yellowknife's urban food and agriculture system. In addition to considering the economic, social, and environmental aspects of food and agriculture, GROW sets out a plan for how the City of Yellowknife can enable and support food and agriculture activities. Please see the GROW: Yellowknife Food & Agriculture Strategy, attached, for details.

Pandemic Context

The COVID-19 pandemic has, and will likely continue to impact Yellowknife's economy for some time and this includes the local and imported food production and agriculture systems. As a result, Administration will consider the implications of COVID-19 on implementation of the proposed actions in the Strategy and adjust timelines and focus as necessary.

Timeline

The Strategy states that the goals and actions identify a 10-year plan for the City of Yellowknife to enable and support food and agriculture activities. However, the implementation plan as presented organizes actions into priority areas and a reduced timeline. The schedule is based on an estimated financial commitment that can be revised should Council choose to increase or decrease annual budgets and priorities allocated for the implementation of the Strategy.

Budget

The Implementation Plan as presented, requires a total financial commitment of approximately \$15,000 over the next two years. Further recommendations based on project research will be brought forward during the annual budget process for Council's review and approval throughout the implementation of the Strategy.

ALTERNATIVES TO RECOMMENDATION:

1. That Council not adopt the GROW: Yellowknife Food and Agriculture Strategy Implementation Plan.
2. That Council direct Administration to make changes to the Implementation Plan.

RATIONALE:

Adopting the Implementation Plan supports Council's goals: 1. Growing and diversifying our economy; 2. Ensuring a high quality of life for all, including future generations, and; 3. Driving strategic land development and growth opportunities. In addition to considering the economic, social and environmental aspects of food and agriculture, the Implementation Plan identifies how the City of Yellowknife can enable and support food and agriculture activities. Once the Implementation Plan is officially adopted, Administration will continue to bring forward funding proposals and updates identified within the Plan on an annual basis for support by City Council.

ATTACHMENTS:

1. GROW: Yellowknife Food and Agriculture Strategy Implementation Plan (DM#640057); and
2. GROW: Yellowknife Food and Agriculture Strategy (DM #620955).
