CITY OF YELLOWKNIFE

COMMUNITY VISION

Yellowknife is a welcoming, inclusive, and prosperous community with a strong sense of pride in our unique history, culture and natural beauty.

COUNCIL MISSION

Council will provide leadership, vision and direction in responding to the needs and aspirations of the community by working cooperatively with staff and residents to provide municipal infrastructure, programs and services that are environmentally, socially and fiscally responsible.

COUNCIL VALUES

- Reconciliation
- Responsiveness
- Responsible Decision-Making
- Amplifying Others
- Multi-Generational
- Engagement
- Reliable Services

The City of Yellowknife – Thriving Together, Growing Stronger!

Yellowknife is evolving from its government and industrial mining town origins into a vibrant economic and service centre and destination for adventure seekers, nature lovers, and those in search of a close-knit, welcoming community.

Situated in Canada's subarctic on Chief Drygeese Territory, Yellowknife lies within the traditional lands of the Yellowknives Dene First Nation, the Tł'chǫ's Mowhì Gogha Dè Njìtlèè and ancestral home to members of the North Slave Métis Alliance.

Yellowknife is a vibrant and multicultural city, where over 21,000 residents from across the globe contribute to a lively and diverse community. With 11 official languages — 9 of which are Indigenous — our community is deeply rooted in Indigenous culture and history, adding rich depth that shapes the city's identity.

As the capital of the Northwest Territories, Yellowknife plays a central role in regional development, offering a growing economy, access to funding opportunities, and top-tier infrastructure, including the newly opened Aquatic Centre. Residents enjoy excellent services and community programs, and the city is alive with events, talent, and fresh energy as new people continue to arrive.

City Council remains focused on responsible budgeting, ensuring public funds are invested wisely to support a safe, inclusive, and high-quality living environment. The City of Yellowknife remains deeply committed to advancing Council's strategic directions - **People First, Service Excellence, and Building a Sustainable Future**. Through collaboration, innovation, and dedication, we continue working to ensure a thriving city for all who call Yellowknife home.

People First

The City was pleased to welcome residents into the highly anticipated \$72 million-dollar Aquatic Centre this year. This new facility was built with an

innovative design, allowing for more amenities, and increased accessibility and sustainability. As part of its vision for Yellowknife's future, the city is modernizing infrastructure with a clear focus on long-term planning to support a thriving, well-planned community.

In 2025 we initiated a comprehensive update to the Community Plan and begun developing a Transportation Plan. Both plans aim to support a more connected, sustainable, and livable city. Together, they guide thoughtful growth, improve quality of life, enhance mobility for all residents, and align with ongoing environmental and economic goals.

Budget 2025 funded key foundational planning exercises for both the organization and the community. From within, the city is aiming to modernize its corporate structure, systems and governance with an eye to being more efficient, effective and responsive to the changing needs of the community.

Service Excellence

Key reports on organizational structure, IT and systems management, and improved work planning tracking and reporting will drive change in 2026. By January 2026, internal corporate governance will be more clearly described between senior leadership and middle managers resulting in better integration and decision making at all levels – while delivering results for Yellowknifers.

By spring 2026, residents will see a new look, feel and improved navigability of its website. The website update is a "downpayment" towards a shift to a 311-service model – where residents and businesses will be able to reach all services with the click of a button or dialing a single number. 311 will take more time to roll out but the building blocks will be assembled throughout 2026 and beyond.

Team City of Yellowknife will continue to build engagement skills with residents and businesses drawing upon its successes in 2025 on its Master Transportation Plan as Yellowknife 2050, its community plan update.

BUDGET MESSAGE

Lastly, the City was pleased to welcome residents into the highly anticipated \$72 million-dollar Aquatic Centre this year. This new facility was built with an innovative design, allowing for more amenities, and increased accessibility and sustainability. As part of its vision for Yellowknife's future, the City is modernizing infrastructure with a clear focus on long-term planning to support a thriving, well-planned community.

While modernization remained a key priority in 2025, significant progress was achieved across all areas of the organization, guided by Council's Strategic Directions, which provided a clear framework for action.

2026 Brings More Growth and Opportunity

In 2026, the City of Yellowknife will continue to re-evaluate and improve our services and operations in several key areas, using the framework outlined in Council's Strategic Directions.

Community Services

- Yellowknife Public Library to expand the Tłı̨chǫ Beading program for additional months as a response to growing popularity. This is a joint program with College Nordique.
- The addition of year-round security to ensure that the Library remains a safe and welcoming space for all.
- Monitor and evaluate the Aquatic Centre building and systems to ensure any issues are identified and addressed during the warranty period.
- Monitor the Aquatic Centre programs to ensure the programs evolve to meet the needs of the community.
- Continue to support the work in the development of the City's Asset Management Plan.

Corporate Services

- Enterprise Resource Planning/311 Implementation
- Implementation of IT Review and Audit recommendations
- Budget 2027
- Financial Audit 2025

- Completion of the Asset Management Plan
- Review and update of Procurement Policies
- Review and update Budgeting process
- Review and update financial policies and by-laws

Economic Opportunities and Investments

- Repeal and replacement of Business Licence By-law
- Website Modernization Project

Governance & Legal Services

- Review of Council Procedures By-law
- Election preparation for Fall 2026 election
- New Council orientation and work planning
- Update Council policies
- Transition to agenda and meeting management software
- Planning for records and information management updates to framework, policies, and document management system

Human Resources

- Updating/Modernizing HR Directives & Procedures
- Updating Corporate Training Register
- Updating OHS Procedures
- Implementation of new OHS Framework
- Development and implementation of HR Help Desk Ticketing Platform

Planning & Development

- Complete Community Plan Update
- Begin public consultation on Zoning By-law Update
- Continue intensification developments
- Commence Area Development Plan design for Taylor Road
- Complete Area Development Plan for Kam Lake 2.0
- Support municipal service extensions and land need

- Create a Development Applications and approval webpage
- Provide council options to expand Development Incentives
- Transition to electronic records for all internal work
- Implementation of the Climate Action Plan

Public Safety

- Launch of Priority Dispatch
- City Business Continuity Plan
- Ongoing plan development and improvements, training, and engagement with community emergency response partners
- Advance FireSmart disciplines for interagency cooperation, cross-training, and vegetation management.
- Implementation and migration to new dispatch call-processing model; Priority Dispatch to improve on quality, accuracy and speeding of service requests.
- Migration of computer aided dispatch and records management platform to replace sun-setting legacy software to improve usability, accessibility, and performance.
- Advance Fire Division water shuttle service for non-hydrant areas of Yellowknife to achieve Superior Tanker shuttle recognition through Fire Underwriters Survey.
- Build depth into our public education though increased public appearance such as open houses and attendance at more public events.
- Renovate the firefighter recruitment program.
- Customer Service Modernization (digital/virtual processes)
- MED Software and Equipment Modernization
- Increasing the number of MED Officers to enhance services; particularly in the downtown core
- Enhancing Officer service and expertise by creating a modernized training program

Public Works

- Updated Emergency Response Plan for landfill fires
- PDO improvements
- New tipping fee structure
- Commencement of Stormwater Receiving Environment Study. This project will determine the effects to the surrounding environment by the City's stormwater system.
- Commencement of the Water Treatment Facility Operations and Maintenance Plan Project. This will be complete by internal resources and will act as reference material for operators at the Water Treatment Plant.
- Address safety concerns at remote water sampling stations. This project will require the construction of landing pads and stairs in remote areas along the Fiddlers Lagoon Treatment System.
- Commencement of the Great Slave Lake Monitoring Sampling Program. This project will require multiple years of sampling within Great Slave Lake to help determine loading for City operations.
- Continuation of the Solid Waste Facility Design, Operations, and Closure Plan. This project is to outline how the Solid Waste Facility is intended to be designed, operated, and closed while meeting regulatory requirements, best practices, and operational efficiencies.
- Continuation of the Landfill Gas Assessment Project. This program is designed to identify landfill gas emissions and potential strategies for managing such emissions.
- Continuation of the Solid Waste Facility Hydrogeological Study and Groundwater Trendline Analysis Project. This project will help identify the groundwater and hydrogeological conditions and impacts from the Solid Waste Facility operations.
- Analysis of regulatory requirements internally to determine where efficiencies can be found and more cost-effective ways of operating while meeting all regulatory requirements.

BUDGET MESSAGE

- Continuation of the Solid Waste Facility Design, Operations, and Closure Plan. This project is to outline how the Solid Waste Facility is intended to be designed, operated, and closed while meeting regulatory requirements, best practices, and operational efficiencies.
- Continue ensuring the City of Yellowknife remains in full compliance with all applicable regulatory requirements, while consistently meeting established deadlines.
- 11 SCFA Service Upgrades
- 65 SCFA Repairs, on pace for 80 in 2025
- 2 Water Main Repairs
- 8 pieces of mobile equipment tendered
- Summer and winter street maintenance for all City roads
- Maintained Fleet of 226 Pieces of Equipment (Light Duty Vehicles, Heavy Duty Vehicles, Stationary Engines for pumps and Generators, Specialty Equipment, Off-Road Equipment, Trailers)
- Operated and Maintained 14 Lift Stations, 6 Pump houses, and the Water Treatment Plant
- Commenced a Water Master Plan Study, identified need for a new Water Pressure zone to support future City growth
- Research and Development Study on Pipe materials for private services and mains to improve the lifecycle of buried piped infrastructure

2025 ACCOMPLISHMENTS

Delivering Results Through Strategic Leadership

In 2025, the City of Yellowknife demonstrated resilience, innovation, and unwavering commitment to its residents. Despite ongoing challenges, including rising operational costs and evolving community needs, City Council remained focused on responsible budgeting and strategic decision-making. Guided by the principles of People First, Service Excellence, and Building a Sustainable Future, the City advanced key initiatives that strengthened municipal services, supported vulnerable populations, and fostered economic and social development. These highlights showcase the City's accomplishments over the past year and outline the financial framework that will continue to support a thriving, inclusive, and sustainable Yellowknife.

People First

Community Services

- Yellowknife Public Library partnered with the GNWT Department of Health and Social Services to have a HealthBox installed in the library, providing free and private health care products (including Naloxone kits, HIV testing kits, condoms, toothbrushes, drug testing kits, and more).
- Progress on the implementation of accessibility projects including the purchase of an accessible podium for Council Chamber, improved accessible access at Lakeview Cemetery, installation of accessible basketball standards in parks and installation of an accessible access door to the Curling Club.
- Development and implementation of the Advanced Street Outreach Program.
- Successful launch and opening of the Aquatic Centre.

Economic Opportunities and Investments

- Signed Destination Marketing Agreement with NWT Tourism
- Community Engagement on Transportation Plan, Place branding and Downtown Safety Initiative Projects
- Hosted international delegates (Arctic Urban Regional Cooperation, foreign ambassadors, Arctic Mayor's Forum)
- Completed Public Engagement Guidelines
- Hosting Gold Mining Education workshops in Yellowknife and Dettah with community partners including YKDFN and Det'on Cho Logistics

Governance and Legal Services

- Supported Council's appointment of a new Mayor and member of Council
- Consolidating and transitioning committee supports to the Office of the City Clerk
- Procured and supported Council's renewal of the Integrity Commissioner contract

Human Resources

- The City successfully reached a four-year Collective Agreement with the Public Service Alliance of Canada (PSAC) – Municipal Enforcement Officers.
- Updated and revitalized its Performance Management Process, resulting in significant improvement in completion rates.
- From January 1 to September 30, 2025, the Human Resources Division successfully recruited 51 full-time permanent positions, reducing the City's overall vacancy rate from 16.7% to 7.69% - 53.95% reduction since the start of the year. This achievement marks a substantial improvement in recruitment and retention outcomes.

2025 Accomplishments

Planning and Development

- Completed Phase I and II public consultation on the Community Plan
- Updated purchase and lease agreements for land disposal
- Applied for land to the GNWT to support commercial and residential development for 25 years
- Completed Population, Economic and Lands needs study

Public Safety

- Community Preparedness/Engagement
- Launch of City personal preparedness materials (guide, workbook, brochures)
- Public engagement on both of the above at the Community Tradeshow
- Ongoing engagement through multiple events with Red Cross/other groups and Memorandum of Understanding with Salvation Army
- Participated in the NWT Wildfire Preparedness Workshop 2025
- Increased wildfire preparedness by building on Fire Smart disciplines to increase the number of Yellowknife Fire Division (YKFD) staff certified as Home Ignition Zone ambassadors, in addition to the FireSmart Neighbourhood Recognition Program through training all Captains as specialists.
- Improved inter-agency cooperation between MED and the RCMP
- Addressed Homeless Encampments through respectful engagement
- Provided support to significant community events such as Red Dress March and National Truth and Reconciliation Day.

Public Works

- Commenced a Water Master Plan Study, identified need for a new Water Pressure zone to support future City growth

Service Excellence

Community Services

- Completed several Asset Management projects including replacement of the Multiplex Ice Plant Evaporative Cooler; various parks and playground upgrades/replacements; cemetery expansion etc.

Corporate Services

- Completion of the IT Review and Audit
- Completion of the 2024 Financial Audit
- Completion of Budget 2026
- Near completion of the Water & Sewer Rate Review
- Mill Rate Policy

Economic Opportunities and Investments

- Welcomed the 100,000th visitor to the Visitor Information Centre

Governance & Legal Services

- Transition of communications functions and website from Office of the City Clerk to Economic Opportunities and Investments
- Continued advancement of records and information management audit
- Implementing work planning reporting tool and dashboard
- Initiated agenda management project (estimated completion 2026)
- Started preparation for Election 2026

Human Resources

- The City retained the services of Blackline Consulting to conduct a comprehensive Organizational Review. The review examines the City's strategic direction, business and operational model, and corporate and departmental responsibilities and workloads. Its

2025 ACCOMPLISHMENTS

objective is to identify options and develop recommendations that will strengthen the City's capacity to respond to future financial and program scenarios, enhance efficiency and effectiveness in service delivery, and align with strategic priorities.

Planning & Development

- Launched new CityView electronic permitting system
- Launched Development Incentives city wide
- Updated purchase and lease agreements for land disposal
- Partner with CMHC to implement use of residential design catalogue
- Standardized pre-consultation meetings for all development proposals

Public Safety

- City focused training
- Participation in cross-government training and exercises
- Fleet and equipment procurement to modernize protection for staff and residents; including quick deployment Emergency Rehab warming/cooling shelters, advanced cardiopulmonary resuscitation (CPR) instruments, an ambulance and a command vehicle.
- Advanced the Division within the City Asset Management Program.
- Modernization of directives and guidelines to align with YKFD overall administrative, operational and training and development program; including a new Learning Management Software (LMS), with the goal of transitioning to a paperless training environment.
- Mayor and Council's Strategic Priorities for Municipal Enforcement Division

Public Works

- Finalized the Water Treatment Plant Flocculant Optimization Study Project. This program evaluated the flocculant usage for municipal

water treatment within Yellowknife and provided recommendations on future operations and monitoring.

- Finalized the Stormwater Management Plan and Stormwater Trend Analysis Project. This program describes the City's efforts to address stormwater infrastructure and maintenance. Additionally, this program outlines strategies to minimize stormwater related impacts on the surrounding environment.
- Finalized the 2025 Biennial Geotechnical Inspection Program. This program ensures that all dams, berms, dykes, and control structures associated with the Fiddlers Lake Lagoon system are inspection and recommendations on maintenance are made.
- Finalized the Lagoon Desludging Options Project. This program outlines the City's challenges, budget requirements, and methods for future lagoon desludging programs.
- Landfill Gas Assessment Project Commencement. This program is designed to identify landfill gas emissions and potential strategies for managing such emissions.
- Continuation of the Solid Waste Facility Design, Operations, and Closure Plan. This project is to outline how the Solid Waste Facility is intended to be designed, operated, and closed while meeting regulatory requirements, best practices, and operational efficiencies.
- 11 Service Connection Failure Assistance (SCFA) Service Upgrades
- 65 Service Connection Failure Assistance (SCFA) Repairs, on pace for 80 in 2025
- 2 Water Main Repairs
- 8 pieces of mobile equipment tendered
- Summer and winter street maintenance for all City roads
- Maintained Fleet of 226 Pieces of Equipment (Light Duty Vehicles, Heavy Duty Vehicles, Stationary Engines for pumps and Generators, Specialty Equipment, Off-Road Equipment, Trailers)
- Operated and Maintained 14 Lift Stations, 6 Pump houses, and the Water Treatment Plant

2025 Accomplishments

Sustainable Future

Economic Opportunities and Investments

- Develop Investment and Attraction Materials
- Launch of Shop Local and Entrepreneurship Week Initiatives

Governance & Legal Services

- Assisted with the establishment of working groups with GNWT partners regarding land issues and shared priorities

- Continuation of the Solid Waste Facility Hydrogeological Study and Groundwater Trendline Analysis Project. This project will help identify the groundwater and hydrogeological conditions and impacts from the Solid Waste Facility operations.
- Research and Development Study on Pipe materials for private services and mains to improve the lifecycle of buried piped infrastructure

Planning & Development

- Standardized pre-consultation meetings for all development proposals
- Completed Climate Action Plan
- Undertook a Transportation Plan
- Rezoned, subdivided and held ballot draw for land on Gitzel for intensification

Public Safety

- 2 Emergency Operations Centre (EOC) activations (level 1) in 2025 to date
- Completed an update to the Community Wildfire Protection Plan and created a Wildfire Interface Response Plan to operationalize primary and secondary wildfire response.
- Voyent Alert emergency notification system for early communication with residents

Public Works

- Integration of sorted cardboard into the compost operations
- On the ground landfill gas assessment
- Landfill cell 3 expansion

Introduction

A Budget is Council's most important policy document. It reflects plans designed to achieve Council's strategic objectives, while at the same time ensuring that the services are delivered in a reliable and cost-effective manner.

The City's budget process is a year-round cycle, beginning in January with Administration's semi-annual update on Council's Goals and Objectives and the current Year's Work Plan priorities, and culminating in Council's approval of the final document in mid-December. This document is a financial plan that prescribes strategic resource allocations for a future period.

The *Cities, Towns, and Villages Act* requires the City to adopt a balanced budget in advance of the fiscal year, which matches the calendar year.

Budget Concepts

The City's financial constructs and practices are consistent with municipal government's best practices and follow public sector accounting standards. Many of these are specific to the non-profit nature of the organization and the associated mandate for transparency. In particular, funds, reserves, tangible capital assets, and financial statements are important and interrelated components of the City's financial plans and position.

Funds

Much of the City's revenues are collected or obtained for specific purposes, and expenditures must be matched to those purposes.

The City uses groups of accounts called funds to achieve this. These funds are currently in use:

General Fund: The General Fund is used for the provision of day-to-day services such as fire, ambulance, parks, recreational facilities, transit, roads, and sidewalks. Typically, about 75% of the money needed to provide these services comes from property taxes, while user charges contribute most of the balance.

Capital Fund: The Capital Fund pays for major acquisitions that support the long-term delivery of programs and services. Most of the money in this fund comes from other orders of government.

Solid Waste Management Fund: The Solid Waste Management Fund covers the costs of handling the community's garbage. About one-third of its revenues come from the associated monthly charges on water bills, while two-thirds comes from tipping fees charged at the Solid Waste Facility.

Water and Sewer Fund: The Water and Sewer Fund is used to maintain and operate the infrastructure related to water distribution and sewage disposal. Almost all of its revenues come from monthly water bills.

Land Development Fund: The Land Development Fund supports the acquisition and development of land for resale; its revenues come from land sales and leases.

Service Connection Failure Assistance Fund: The Service Connection Failure Assistance Fund helps property owners pay for repairs to water and sewer lines between customer buildings and City mains. The money comes from fees collected on monthly water bills.

READER'S GUIDE

Reserves

The City maintains a number of reserves that enable it to set aside money for specific purposes, thus levelling its expenditures and avoiding the extreme peaks that could otherwise be associated with major initiatives. They are funded through all of the City's financial assets: cash on hand, accounts receivable, and land held for resale.

The City currently maintains the following reserves:

Information Technology Reserve: The Information Technology Reserve is used to maintain consistency in information technology infrastructure expenditures. Money is transferred into the reserve each year in anticipation of upcoming requirements, and information technology capital expenditures approved by Council are funded from the reserve.

Major Community Facility Reserve: The Major Community Facility Reserve is used to set aside money in anticipation of large future expenditures on City facilities. Money is transferred into the reserve each year, based on facility plans. As well, the revenue from the infrastructure replacement fee – introduced in 2011 and charged on all facility rentals – is transferred into the reserve on an annual basis. When the City undertakes the development of a significant facility, it is partially funded by this reserve.

Mobile Equipment Replacement Reserve: The Mobile Equipment Replacement Reserve enables the City to level out the costs of renewing its mobile equipment. Money is transferred into the reserve each year in anticipation of the replacement requirements, and annual fleet replacements approved by Council are funded from the reserve.

Downtown Development Reserve: The Downtown Development Reserve was established by Council in 2002 to fund future projects that impact the downtown area. Typically, 25% of parking meter revenues are transferred to this fund each year.

Heritage Reserve: The Heritage Reserve is used to fund projects that recognize and celebrate Yellowknife's heritage. If there are unexpended funds in the Heritage Committee's operating budget allocation, they are transferred into this reserve for future use on projects approved by Council.

Samuel Colley Donation Reserve: The Samuel Colley Donation Reserve was established in 2003 by a donation from the Samuel Colley estate and is used for the purpose of improving the environment and the resources of the Yellowknife Public Library.

Community Grant Reserve: Annual unused grant funding is transferred to this reserve for future use.

Tourist Accommodation Tax Reserve: The Tourist Accommodation Tax Reserve is used to promote and develop tourism. Funds are provided to a destination market non-profit organization under agreement for the exclusive purpose of promotion of the City of Yellowknife as a tourist destination. Funds are transferred into the reserve from the tourist accommodation taxes levied on short-term accommodations.

Tangible Capital Assets

The City has numerous facilities, buildings, and other infrastructure (e.g., roads and sidewalks), as well as equipment that it uses in the provision of municipal services; these are referred to as tangible capital assets.

Each year, changes occur in these assets: new ones are acquired, existing ones are enhanced, and older ones may be retired. In addition, amortization – the equivalent of depreciation in the private sector – is recorded for all of them, with the exception of land.

Financial Statements

The City's financial statements report the results of the financial plan outlined in the budget by providing a point-in-time summary of the City's financial and physical assets and liabilities.

The City's budgets are cash-based so capital expenditures are expensed. However, the Canadian public sector accounting standards that govern the preparation of the financial statements require that assets be set up as tangible capital assets and amortized over time. These differences mean that a balanced budget – where overall revenues match overall expenditures – can lead to an increase in the City's net worth, reported in the financial statements as a surplus.

The difference between the City's assets and its liabilities is referred to as its accumulated surplus, or net worth. When the City's accumulated surplus is larger than it was the previous year, the financial statements consider that difference to be a surplus for that year. Most years the City records an annual surplus because investments in assets increase its net worth.

Organizational Structure

Yellowknife City Council is made up of one Mayor and eight Councilors who collectively represent the municipality at large. The City Manager is the link between Council and staff, where Council is responsible for governance and staff are responsible for operations. Mayor and Council are elected for four-year terms. At the beginning of the term, they adopt goals and objectives to create a framework for their decision making.

City of Yellowknife staff are grouped into eight departments that reflect the overall nature of their responsibilities and contribution to the provision of City services and programs: Administration, Community Services, Corporate Services, Economic Opportunities and Investments, Governance and Legal Services, Planning and Development, Public Safety, and Public Works and Engineering. Each department, with the exception of Administration, is led by a Director, and these Directors report to the City Manager. Most departments are composed of multiple divisions to enable them to focus resources in specialized areas.

Definitions

Activity: A function that contributes to the specific services and programs provided by the organizational unit

Assessed Value: A value placed on property for the purpose of allocating property taxes

Budget: A financial plan that prescribes planned resource allocations for a future period, with a focus on where these resources come from and how they will be allocated to provide programs and services

READER'S GUIDE

Budget Policy: A clear and sustainable framework for prudent financial management of the City's resources

Canada Community Building Fund: A federal program, administered through the GNWT, which provides a partial rebate on gasoline taxes to communities for environmentally friendly programs

Capital Expenditure: An investment that acquires or improves a major asset that provides a benefit for more than one year, and requires an expenditure of \$50,000 or more

Consumer Price Index (CPI): A statistical description of price levels provided by Statistics Canada and used as a measure of the increase in the cost of living (i.e., economic inflation)

Debt Service: Money paid to reduce a financial obligation entered into by the City

Deficit: When expenses (money out) are greater than revenue (money in) over the budgeted period

Evergreen Strategy: A practice which aims to replace 25% of the City's information technology infrastructure each year

Expenditure: Money spent by the City on a particular project, program or service

Fiscal Year: The 12 months which the year's budget covers. In the City's case, the *Cities, Towns and Villages Act* stipulates that this is the calendar year (January 1 to December 31)

Formula Funding: Money transferred to the City by the territorial government, according to a specific formula

Full-time Equivalent Position (FTE): A part-time position expressed as the equivalent of a full-time position. For example, a

casual Administrative Assistant who works three weeks full-time during a year would be equivalent to 0.06 of a full-time position

Generally Accepted Accounting Practices (GAAP): The uniform minimum standards for financial accounting and recording

GNWT: The Government of the Northwest Territories (GNWT), the territorial government which governs the City through legislative acts and regulations

GFOA: Government Finance Officers Association of the United States and Canada

Infrastructure: Roads, buildings, water and sewer systems, parks, trails, and information technology hardware and software

Levy: Property tax revenues that support government activities

Mill Rate: The mechanism for allocating property taxes among property owners. Each property is assigned a mill rate which is multiplied by the Assessed Value to determine the amount of property tax to be paid for that property

Object: A group of expenditures that is common across all organizational units

User Charges: Fees paid by the user of a specific service provided by the City, such as water and sewer services or access to recreational facilities

BUDGET POLICY

Purpose

To establish a Budget Policy that defines a clear and sustainable framework for prudent financial management of the City's resources.

Policy

The City of Yellowknife prepares a three-year budget that is consistent with Council's goals and objectives, reflective of stakeholders' needs, based on best practices, and in compliance with all applicable legislation and related by-laws. It incorporates the guidance, principles, and values documented in the City's Asset Management Plan, Long-Term Financial Plan, Fleet Replacement Plan, Fees and Charges Policy, Information Technology Evergreen Strategy, Carry Forward Policy, and further documents that may be deemed necessary in developing the budget. It is also influenced by external factors, including economic, social and environmental conditions, and evolving challenges and opportunities.

The budget provides a comprehensive plan for delivering efficient services to stakeholders in a manner that aligns resources with the policies, goals and objectives of the City. It is instrumental in ensuring the ongoing financial health of the City.

I. Budget Type, Presentation and Time Period of the Budget

The City of Yellowknife shall prepare a three-year rolling budget document. The second and third year budgets shall be adopted in principle in the first year and then adopted individually each year thereafter.

II.

Balancing the Budget

The budget shall be balanced except when reasonably unforeseeable circumstances occur. Examples of unforeseeable circumstances include sudden and severe fluctuations in revenue, major emergency expenditures, and significant changes in the value of assets.

The budget shall be considered balanced if:

1. fund balances are within the minimum and maximum limits prescribed in the Stabilization Funds policy statement; or
2. the change in balance of each fund meets or exceeds the plan to establish minimum fund balances as prescribed in the Stabilization Funds policy statement.

The budget shall disclose whether the budget is balanced. If the budget is not balanced, the budget shall disclose the reasons for not balancing the budget.

The budget shall show the change in balance of each fund.

III.

Stabilization Funds

Council shall establish and maintain fund balances as follows:

1. General Fund – no less than 10% and no more than 15% of budgeted expenditures;
2. Solid Waste Management Fund – no less than 5% of budgeted expenditures;

BUDGET POLICY

3. Water & Sewer Fund – no less than 5% of budgeted expenditures;
4. Land Development Fund – amount sufficient to fund future land development;
5. Service Connection Failure Assistance Fund – no less than Nil;
6. Capital Fund – amount sufficient to fund expenditures according to the Asset Management Plan; and
7. Reserve Fund – amount sufficient to fund expenditures according to the Long-Term Financial Plan and the Asset Management Plan.

Fund balances may be used at Council's discretion for emergencies, unanticipated economic downturns, and one-time opportunities. Minimum fund balances shall be restored in the following year or according to the Long-Term Financial Plan.

IV. Asset Management

Asset Management shall be implemented according to the Asset Management Plan and the Ten-Year Capital Plan adopted by Council. The annual budget shall be prepared in accordance with these Plans, and shall include sustainable transfers from the General Fund, Water and Sewer Fund, and Solid Waste Management Fund to the Capital Fund.

V.

Revenues

The City shall continuously seek new and alternative revenue sources in order to maintain a diversified and stable revenue system to shelter the City from fluctuations in any one revenue source.

The City shall estimate its revenues through an objective, analytical process that utilizes trends and judgmental and statistical analysis as appropriate.

One-time revenues should not be used for ongoing expenditures. One-time revenues may be used only to increase fund balances, decrease debt, or for non-recurring expenditures such as capital acquisitions and one-time projects. One-time revenues shall be noted in the budget.

The budget shall disclose any estimated future costs and commitments arising from expenditure funded by one-time revenues.

VI.

Debt Management

Long-term debt may be acquired to finance capital acquisitions, finance land development and refinance existing long-term debt. Long-term debt may not be used to finance operating costs.

The maximum term of any debt, except debt for land development, shall be the useful life of the asset, to a maximum of 25 years. The maximum term for debt for land development shall be 15 years.

BUDGET POLICY

Debt limits shall be as follows:

1. The total amount of outstanding debt shall not exceed two times the municipal corporation's revenue for a fiscal year;
2. Short-term borrowing shall not exceed 15% of the municipal corporation's revenue for prior fiscal year; and
3. Total annual debt servicing costs shall not exceed 25% of the municipal corporation's revenue for a fiscal year.

VII. Debt Level and Capacity

The budget shall include an analysis of debt capacity with the following information:

1. statutory limitations;
2. evaluation of trends in the City's financial performance including availability and reliability of net revenues expected to service debt; and
3. disclosure of five-year projections of measures relevant to determining debt capacity.

The budget shall include an analysis of capital improvement options using the following financing alternatives:

1. debt as required by the City's Asset Management Plan;
2. maximum allowed levels of outstanding debt and annual debt servicing; and
3. no new debt.

VIII. Administration Fees

The City shall transfer the annual estimated administrative costs from the Water and Sewer Fund, Solid Waste Management Fund and Land Development Fund to the General Fund. The estimated administrative costs shall be reviewed annually as part of the budget preparation process.

IX. Policy Compliance

If any aspect of the budget is not in compliance with the Budget Policy, this shall be disclosed in the Budget Document, along with the reason for the non-compliance.

BUDGET POLICY

COUNCIL STRATEGIC DIRECTIONS

In early 2023, Council set their Strategic Directions for their term in office. Complementing the core and essential services that are delivered by the City, Council Strategic Directions set the tone and

prioritize the kind of projects and activities that the City takes on for Council's term in office. An action plan identifies those actions which advance these Directions.

Council Strategic Directions 2023-2026

PEOPLE FIRST
Facilitating a safe, accessible and inclusive community that supports the well-being of all.

FOCUS AREAS

Reconciliation Continuing to nurture positive and respectful relations with Indigenous governments, organizations and peoples	Housing For All Doing our part to create the context for diverse housing and accommodation options	Liveable Community Supporting all residents to participate in the social fabric and physical space of our community
---	--	---

SERVICE EXCELLENCE
Optimizing resource capacity to ensure reliable services and infrastructure for current and future needs.

FOCUS AREAS

Asset Management Planning, implementing and maintaining assets to reliably, safely and cost effectively deliver services for current and future community needs	Capacity Balancing service levels with human and fiscal resources	Organizational Culture Providing a positive and productive workplace environment for effective governance and service excellence
---	---	--

Thinking Forward

OUR VISION
Yellowknife is a welcoming, inclusive and prosperous community with a strong sense of pride in our unique history, culture and natural beauty and role as the capital city and gateway to the Northwest Territories.

Leading With Purpose

OUR MISSION
Council will provide leadership, vision and direction in responding to the needs and aspirations of the community by working cooperatively with staff and residents to provide municipal infrastructure, programs and services that are environmentally, socially, and fiscally responsible.

SUSTAINABLE FUTURE
Managing growth for environmental responsibility and economic diversity.

FOCUS AREAS

Resilient Future Enhancing Yellowknife as a great place to live, visit, work and play now and into the future	Growth Readiness Ensuring land development supports economic readiness and community priorities	Robust Economy Doing our part to stimulate and amplify economic development opportunities
---	---	---

We Stand for...

Council works to make positive impacts in our community, deliver excellent services and guide a complex organization. We care about the impacts of our decision-making. Our principles guide our civic leadership and municipal service.

Reconciliation The City is committed to reconciliation with Indigenous peoples.	Responsiveness The City is focused on being responsive to the needs of the public.	Responsible Decision-Making The City is focused on evidence-based decisions that serve the broad public interest.
Amplifying Others The City enables residents and other organizations to meet diverse community needs.	Multi-Generational The City will consider the multi-generational impact and legacy of its decisions and actions for generations to come.	Engagement The City is committed to meaningful participation and collaboration.
Reliable Services The City is focused on ensuring the continuity of defined service levels.

Total Grants & Donations	20,899	26,784	35,605	42,755	33,102	34,943	22,429	

Note:

- (1) Funding secured for the Lift Station #1 Replacement capital project.
- (2) Funding applied for under the Housing Infrastructure and Communities Canada Program for the implementation of the Transportation Plan.
- (3) Includes funding from NWT Association of Communities for wildfire preparation (2026 - \$740,000, 2027 - \$807,000 and 2028 - \$807,000).
- (4) The City of Yellowknife, by agreement with the Government of Canada, is the Community Entity that receives funding from the Government of Canada's Reaching Home Canada's Homelessness Strategy on behalf of the Yellowknife Community Advisory Board on Homelessness (CAB), as CAB members work toward realizing its Community Plan (Plan) on Homelessness. The grant total does not include Reaching Home's funding as Reaching Home has its own budget and audited Schedule of Revenues and Expenditures for submission to the Government of Canada. It is anticipated the City will receive \$3,360,000 from the Government of Canada between April 1, 2026 and March 31, 2028 to fund sheltering agencies and other related expenses.

Total Expenditures (By Object)	1,574	1,494	1,618	1,530	1,655	1,718	1,787	

Note:

- (1) Revenues are from flag sales.
- (2) Public relations and governance strategy work.
- (3) Travel, meeting expenses, memberships, and subscriptions.
- (4) Community Grants and Tax Relief. City Council may make grants for purposes that, in the opinion of Council, will benefit the residents of the municipality. During budget deliberations Council sets the total dollar amount of grants to be given out during the year; specific allocations are recommended during the grant review process and approved by Council early each year. Property tax relief is provided for eligible senior and disabled property owners (to a maximum of \$2,000 per year) on equal cost-sharing basis with the GNWT. The total amount of all grants allocated by the City must not exceed 2% of the previous year's unrestricted revenues.

GENERAL FUND – Administration

OFFICE OF THE CITY MANAGER

The City Manager is accountable to City Council for overseeing the development and implementation of municipal policies and programs, as well as for managing the City's workforce and financial resources to ensure effective service delivery. Key responsibilities of the City Manager include leading the broad requirements of the organization, providing advice to Council and executing its decisions, and working with all departments to ensure the consistent delivery of quality programs and services.

The Office of the City Manager provides administrative leadership, coordinates interdepartmental activities, drives stakeholder engagement, directs the implementation of Council's direction and

administers the appropriate controls to ensure that all City programs are delivered effectively and efficiently while encouraging innovation and creativity.

The City Manager provides leadership to the City's seven departments: Community Services, Corporate Services, Economic Opportunities and Investments, Governance and Legal Services, Planning and Development, Public Works and Engineering, and Public Safety. Each Department is led by a Director. Also, the City Manager directly oversees the Human Resources Division and Executive & Strategic Support Division.

GENERAL FUND – Administration

EXECUTIVE & STRATEGIC SUPPORT DIVISION

The Executive & Strategic Support Division plays a pivotal role in supporting the effective leadership and governance of the City. This division provides high-level administrative, strategic and operational support to the City Manager and the Senior Leadership Team, ensuring alignment with Council priorities and corporate objectives.

This division also oversees the preparation of briefing material; tracks progress on corporate goals and ensures timely and accurate information flows between the Office of the City Manager and internal and external stakeholders.

Note:

- (1) 2026 property taxes are based on 2025 assessed values which are expected to be 0.89% higher than 2024 assessed values. The General Assessment was in progress at time of the budget estimates. The increase in taxation revenue is based on the assumption that the mill rate will increase by 3.7% in 2026, 7% in 2027 and 7.5% in 2028.
- (2) Taxes allocated to the Capital Fund are used to pay principal and interest on general capital debts and to fund capital projects.
- (3) Interest earned and/or projected to be earned.
- (4) Salaries and overhead costs associated with administering other Funds are recovered by charging estimated administration fees.

GENERAL FUND – Community Services

COMMUNITY SERVICES DEPARTMENT

The Community Services Department strives to foster a sense of community spirit unique to Yellowknife through the provision of a variety of indoor and outdoor facilities and through the delivery of its programs and special events.

The Director's office and its three divisions (Programs, Facilities, and Library), provide diverse and high-quality recreation and leisure opportunities, and manage the Federal homelessness funding. The department also maintains a close working relationship with

volunteer organizations, groups, individuals, and private sector entities who provide programs, services, and events. The Department also administers a variety of grant programs and service contracts. Many capital upgrades and developments to the facilities are managed through Department resources to ensure that City facilities continue to meet the needs of the community, achieve or exceed their full life expectancy, and attain a high level of energy conservation to reduce energy costs.

- (3) Utilities relate to the Old Mine Rescue Building.

GENERAL FUND – Community Services

FACILITIES DIVISION – ARENAS

The Facilities Division operates and maintains the Yellowknife Community Arena and the Multiplex for community use. The Division is also responsible for the upkeep and maintenance of the Curling Club. This includes maintaining the equipment and structure of the buildings and planning future repairs and upgrades to the facilities to

keep the use of the facilities relevant to the needs of the community. The Facilities Division works closely with several volunteer recreation associations in scheduling the use of the arenas for both summer and winter use.

FACILITIES DIVISION – PARKS

The Facilities Division operates and maintains Somba K'e Park, city parks and trails, the Wildcat Café, the Fireweed Studio, and numerous outdoor fields for community use. This involves working closely with several volunteer recreation associations to schedule the use of five ball diamonds, three soccer pitches and eight tennis courts. The Division also performs the necessary care and maintenance for the approximately 20,000 square meters that comprise the Lakeview Cemetery.

In addition, the Division provides services such as delivery of a limited supply of rentable equipment, litter removal in the downtown core, and snow removal in the winter at various city sites and trails. The Facilities Division - Parks also maintains existing equipment in 17 playgrounds and infrastructure within 40 parks/greenspaces and plans for future community requirements through the budget process.

PROGRAMS DIVISION - LIBRARY

The Library Division provides library services to the population of Yellowknife and acts as a resource for the other libraries in the Northwest Territories. It is responsible for the operation of the Yellowknife Public Library and, in this role, supports the educational

and recreational reading, viewing and listening needs of its patrons. It does this by developing and making available a strong collection in a variety of formats, and by offering a wide range of programs designed to enhance the appreciation of literature in its many forms.

PROGRAMS DIVISION – AQUATIC CENTRE

The Programs Division manages all recreation programs and City sponsored Special Events. This includes all programming and events that are offered through the Aquatic Centre. Aquatic programs and events are offered on a seasonal basis according to the demands and the needs of the community. The Division works closely with the public and volunteer organizations, local school

boards, and government agencies to enhance water safety in Yellowknife and throughout the Northwest Territories. The programs that are offered include the Lifesaving Society's Swim for Life programs, as well as daily swim times for all age groups. This facility also provides rental opportunities to meet the needs of all users and groups from recreation to sport training.

PROCUREMENT & SUPPLY SERVICES DIVISION

The Procurement & Supply Services Division leads the purchasing processes, insurance claims and coverage, and the operation of City Stores. Purchasing tasks include coordinating the transparent procurement of goods and services for City departments through the issuance of tenders, requests for proposals (RFPs) and purchase

orders. The insurance work involves communicating claims and coverage information between the City's insurers and the user departments. City Stores warehouses and manages the City's inventory.

GENERAL FUND – Governance & Legal Services

GOVERNANCE & LEGAL SERVICES DEPARTMENT

The Governance & Legal Services Department is responsible for providing legal counsel and strategic advice to ensure municipal operations comply with legal, ethical, and governance standards. The department oversees corporate and Council governance services and support, including municipal law and policy, risk management, compliance, and the Office of the City Clerk.

Key functions of the Governance & Legal Services Department include: strategic planning and oversight of the City's modernization

initiative, provision of legal services and support to City Council and City Departments, conduct of municipal elections, responsibility for records management, and legislative and support services for Council and its committees.

Within the Governance & Legal Services Department there is the Directorate Division and Office of the City Clerk Division.

GENERAL FUND – Governance & Legal Services

OFFICE OF THE CITY CLERK DIVISION

The Office of the City Clerk Division provides legislative support services to City Council, its Standing and Special Committees, Administration, the Development Appeal Board and the Board of Revision. As part of its legislative support services, the Office of the City Clerk ensures that the process of Council and its Committees is followed as prescribed in the Council Procedures By-law and applicable territorial and federal legislation.

The Office of the City Clerk coordinates reports and information received from various departments of the City, as well as outside sources, for the preparation of agendas, and attends the various

meetings to record the minutes of proceedings. All copies of original Minutes and By-laws are retained in the Office of the City Clerk, along with the Official Corporate Seal of the City.

The Office of the City Clerk conducts all municipal general elections and by-elections, and voter borrowing approval referendums in accordance with the prescribed legislation.

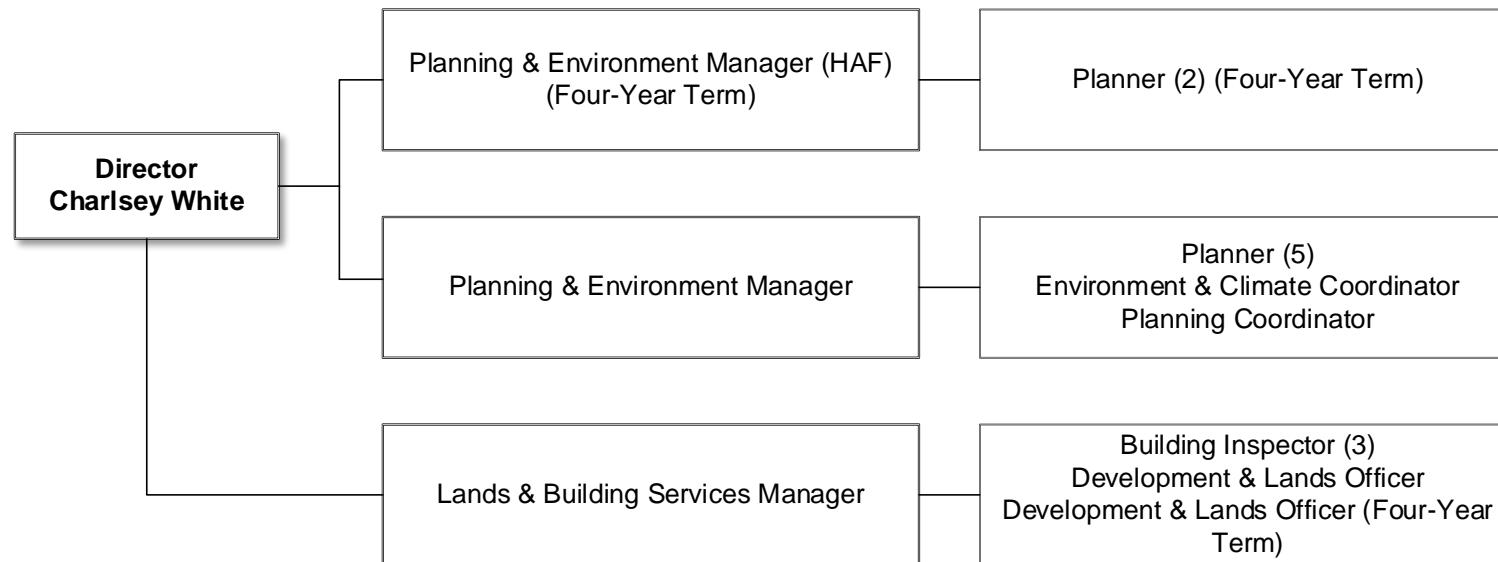

The Office of the City Clerk also leads and coordinates corporate records management protocols and training.

GENERAL FUND – Planning & Development

PLANNING & ENVIRONMENT DIVISION

The Planning & Environment Division collaborates with residents, businesses and the community on the planning and development of land, as well as Climate Change mitigation and adaptation within Yellowknife. This includes zoning and development decisions, representation of the City at appeal hearings, management of development contractors and site plan/subdivision developments.

The Division is responsible for a broad range of professional, administrative and technical services. These responsibilities include the creation, implementation and monitoring of land use plans and local by-laws. Public services related to Climate Change, Energy and Environment are included in the division responsibilities.

GENERAL FUND – Planning & Development

PLANNING & ENVIRONMENT DIVISION (HOUSING ACCELERATOR FUND)

In April 2024, the Government of Canada announced the City of Yellowknife's successful application to the Housing Accelerator Fund (HAF). The intent of this funding is to remove barriers to encourage local initiatives related to long- and medium-term housing supply, affordability, and the planning for diverse and climate resilient communities. The Division will focus on completing the nine Action

Plan Initiatives funded through the HAF, with an emphasis on policy development. These initiatives focus on infill development, intensification, disposal of city land, streamlining development processes, infrastructure planning, incentives and disincentives, and addressing parking within the city. Included are updates to the Community Plan, Zoning By-law and internal policy and process updates.

LANDS & BUILDING SERVICES DIVISION

The Lands & Building Services Division manages the Land Administration By-law and the Building By-law. Land-related transactions, including purchases, sales, leases, agreements, management of development contractors, subdivision developments and coordination with territorial departments. The construction process is followed by the City's Building Inspectors to ensure the safety and standards of all construction in The City of Yellowknife.

The Division is responsible for the issuance of permits and compliance through review, inspection, and enforcement. The division reviews applications to ensure that projects are designed and built in accordance with Building By-law No. 5058, and other applicable standards and regulations.

The Division takes pride in remaining up to date with the newest codes requirements and reflecting the highest standards within the City.

GENERAL FUND – Public Safety

EMERGENCY PREPAREDNESS DIVISION

The Emergency Preparedness Division is empowered to meet legislated responsibilities for directing and controlling local coordination of emergency response to, and recovery from, a major emergency or disaster event.

The Emergency Management Program is comprised of the following four interdependent foundational components: Prevention and Mitigation, Preparedness, Response, and Recovery. These four components of emergency management are implemented by all communities in the NWT.

The Division supports best practice standards through an established Community Emergency Plan and series of companion documents which provide an overall guidance structure to address the foundational components. The Plan is designed to support residents, emergency response agencies, and City employees during these events. For regular emergency work, residents interact directly with first responder agencies as their needs dictate.

A key support service and critical link for delivery of emergency services, and other corporate services, is the Public Safety Communications Center (PSCC). Dispatchers at the PSCC coordinate communications between NWT 9-1-1 and the Fire Division to facilitate a safe, swift and appropriate response for firefighter-paramedics using radio and computer-aided systems to share information instantly and seamlessly. Additionally, dispatchers provide a support level of service for Municipal Enforcement with call processing, resource dispatching, and safety monitoring of staff during responses. Dispatchers also provide a support level of service for the Public Works Department with SCADA monitoring, working alone status keeping, and after-hours call processing. Records management for all groups is a key responsibility as concise and accurate information is required for unified corporate service delivery.

FIRE DIVISION

The Fire Division is an integrated service that provides fire services such as fire suppression, rescue, dangerous goods response, and other types of responses and activities needed to protect property, people and the environment. A key service provision is Emergency Medical Services (EMS) pre-hospital care. The Division delivers care, stabilization, and transportation to someone experiencing a medical emergency at a Basic Life Support (BLS) level. In addition

to providing these response services, the Division is responsible for life safety programs through the delivery of educational activities promoting a safe community as well as fire inspections of high risk and high occupancy structures to assess occupant safety. These service delivery levels were adopted by Council for implementation on *April 21, 2021*.

MUNICIPAL ENFORCEMENT DIVISION

The Municipal Enforcement Division (MED) maintains public safety and good order through the use of education, mediation, and fines in the enforcement of numerous City by-laws as well as various Northwest Territories Acts when necessary.

The goal of the Division is to serve the citizens of Yellowknife by performing duties in a prompt, fair, consistent, and competent manner to ensure that Yellowknife remains a safe, clean, enjoyable place to work, live, or visit.

The delivery of services by MED is done within the framework of the Council established *By-law Enforcement Policy*. In addition, MED Officers must at all times work within the rule of law, and in accordance with law. MED Officers are peace officers and have the authority to conduct investigations, lay charges, and make arrests in certain situations.

MED Officers conduct proactive enforcement patrols primarily by vehicle and foot, but also on bicycle and snowmobile as capacity allows. They assist in the delivery of many City services such as the Library, Visitor Center, Transit Services, Engineering Services, Finance, Legal, and Community Services regularly. They assist the Fire Division and RCMP with emergency events and deliver safety programs in the community.

The division is often tasked with maintaining conduct at parades, demonstrations, and burial processions. The division also maintains and processes coin revenue for approximately six hundred fifty-five on-street parking meters to facilitate orderly access to the Central Business District.

GENERAL FUND – Public Works & Engineering

PUBLIC WORKS & ENGINEERING DEPARTMENT

The Department of Public Works & Engineering strives to provide cost-effective and responsive municipal services to the public within the policies, objectives and budget outlined by City Council. The Department delivers programs in four areas:

The Works Division carries out the operations and maintenance programs which cover the delivery of basic municipal services, including: water and sewage treatment, piped or trucked water and sewer distribution services to all City residents, maintenance and repair of the City's roadways and sidewalks, traffic light operations, stormwater management, and vehicle servicing for all City departments.

The Solid Waste Division carries out the operations of the municipal landfill and manages the waste collection for the City. The Division is also responsible for the implementation of the City's "Strategic Waste Management Strategy" that has a community waste diversion objective of 50% by 2030. This includes various initiatives

from education to operational and cultural shifts in waste management throughout Yellowknife.

The Engineering Division delivers and administers the City's capital works programs, which include major construction under the water and sanitation program (such as water treatment and sewage disposal facilities), the roads and sidewalks program (new road construction, paving and concrete work), the land development program and major and minor capital works for other City departments. This division also manages the City's transit system.

The Environmental & Regulatory Division carries out the environmental and regulatory activities of the City. With the approval of the City's new 15-year Class A water licence, the City requires dedicated staff and resources to address all monitoring, testing, record keeping, reporting and project management necessary to maintain compliance with regulatory requirements. This division is likely to expand throughout the course of the 15-year water licence.

Note:

- (1) Revenues are estimated based on user fee increases of 9% in 2026, 10% in 2027 and 11% in 2028.
- (2) Landfill closure and post-closure liability are subject to significant measurement uncertainty and changes in assumptions. Significant changes in landfill capacity will also impact the liability.
- (3) The administration fee transferred to the General Fund is based on the estimated cost of administrative services provided to the Solid Waste Management Fund.
- (4) Asset Retirement Obligations for the landfill closure and post-closure costs were recorded in the City's 2024 Audited Financial Statements with a net present value of \$17,941,000.

WATER & SEWER FUND

The Water & Sewer Fund activities include all aspects of establishing, operating and maintaining buildings, equipment and work related to the supply and treatment of potable water, distribution

of potable water, and collection, treatment and disposal of sewage. These costs are recovered through charges to service users.

Closing Balance	3,099	6,213	1,818	4,233	2,511	1,360	219	

Note:

- (1) Revenues are estimated based on user fees increases of 2.6% in 2026, 3.0% in 2027 and 3.5% in 2028. The monthly Infrastructure Replacement Levy per equivalent residential unit (ERU) will increase from \$18.50 to \$21.00 in 2026, \$23.50 in 2027 and \$26.00 in 2028. The levy is used to fund water & sewer infrastructure in Capital Fund.
- (2) Utility penalties.
- (3) Annual transfer to Capital Fund increased to \$2 million annually in 2024.
- (4) Water delivery and sewage pump out contracted costs.
- (5) An Administrative Fee, based on the estimated cost of administrative services provided to the Water and Sewer Fund, is transferred to the General Fund each year.

LAND DEVELOPMENT FUND

The Land Development Fund supports all aspects of acquiring, developing, and disposing of municipal lands including:

- Conceptual development plans and comprehensive plans for development areas;
- Property appraisal, legal survey and mapping related to lands for disposal, as well as engineering and constructing infrastructure required in the development area;

- Recovery, through the sale of public lands, of all direct, indirect and associated costs related to municipal lands in accordance with the Land Administration By-law; and
- Utility infrastructure installed on public rights-of-way in new subdivisions/development areas (which becomes the responsibility of the Water and Sewer Fund upon final acceptance by the City).

Closing Balance	9,423	17,213	9,802	17,272	13,618	15,138	15,718	

Note:

- (1) Land sale estimates for 2026 through 2028 are based on anticipated sales of parcels in Engle Business District Phase 2 and infill lots to be brought to the market.
- (2) When land from the land inventory is resold, the costs of the land are shown as an expenditure.
- (3) An Administrative Fee, based on the estimated cost of administrative services provided to the Land Fund, is transferred to the General Fund each year.
- (4) Includes the transfer of \$4 million to the General Fund originally transferred to the Land Development Fund in May 2025 for strategic land acquisition opportunities.
- (5) The infrastructure development costs are reported as investments in capital assets so related amounts are transferred to the Capital Fund.

SERVICE CONNECTION FAILURE ASSISTANCE FUND

The Service Connection Failure Assistance Fund provides property owners with financial support towards the repair of water and sewer service failures that occur between the City main and a building

foundation. It is funded by a levy on monthly utility bills and governed by City of Yellowknife By-law No. 4664.

CAPITAL FUND – 2026 Capital Projects

Department Project	Community Services Accessibility Implementation	Division	Parks				
		Budget					
		2026	2027	2028			
		\$	\$	\$			
Expenditures		220,000	300,000				
Funding							
Community Public Infrastructure Funding		220,000	300,000				
<i>Total Funding</i>		220,000	300,000				
Purpose		Description					
The Accessibility Audit of the City's Facilities, Trails, Parks and Playgrounds identified key areas where barrier removal is required. A prioritized implementation strategy was developed and approved by Council, to ensure the City moves towards full accessibility in these key areas. The City continues to implement accessibility improvements.							
Project Details							
The Accessibility Audit findings, originally advanced by City Council in the 2017 Budget continues to be implemented. The scope included auditing the City's facilities and infrastructure, specifically the structural design of facilities as well as their functional usability based on accessibility needs of individuals with a wide range of challenges including mobility, visual, hearing, cognitive and sensory disabilities. The audit identified a number of projects for a variety of facilities that will assist Council in achieving their Community and Corporate Vision of an inclusive City and move towards a community that ensures a high quality of life for all, including future generations. The audit identified the need for approximately \$5,000,000 worth of work to be completed over a ten-year period to strategically remove barriers using a priority-based approach.							
Plans for 2026 and 2027 include:							
<ul style="list-style-type: none"> • Installing accessible parking pads, multipurpose courts, picnic tables and benches at a variety of parks; • Developing accessible basketball courts and playgrounds with accessible amenities; • Continue upgrading facility components such as accessible door openers, lighting and exit signs; • Additional playgrounds with accessible amenities; • Developing accessible wayfinding signage; • Adding accessible parking spaces and curbing; and • Continuing the development of accessible paths, benches, and tables at playgrounds and parks. 							

CAPITAL FUND – 2026 Capital Projects

Department Community Services
Project Accessibility Implementation

Division Parks

The drivers for this project are to increase the City's level of service in an efficient way, possibly increase revenue due to additional user groups being able to use the areas, ensure that we are using the best practices for the industry for operation and accessibility compliance to reduce risk and increase community trust and reduce our health and safety and operational risks.

Operational Impact

City Facilities will become more accessible by improving functional usability for more residents. Incremental playgrounds, trails and pads will require ongoing repairs and maintenance.

CAPITAL FUND – 2026 Capital Projects

Department	Corporate Services	Division	Asset Management & GIS
Project	Asset Management System Development and Implementation		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	125,802		
Funding			
Community Public Infrastructure Funding	125,802		
Total Funding	125,802		
Description			
Purpose			
To develop City-wide asset management best practices that help ensure the sustainable delivery of services through responsible management of the City's assets.			
Project Details			
Work is ongoing to collate asset information, develop asset management plans across all City assets and to enhance those completed with validated asset and non-asset strategies. This work will include conducting critical, valuation and condition assessments, update asset registry with new information, develop and implement service-based asset management plans, develop and implement an overall enterprise investment management framework, establish investments plans and develop and implement a customized competency framework.			
Operational Impact			
While additional operating resources will be required to implement and sustain more structured asset management practices, properly maintained and managed assets will contribute to overall lower life-cycle costs and longer-serving assets, resulting in efficiencies and cost savings.			

CAPITAL FUND – 2026 Capital Projects

Department Project	Community Services Cemetery Expansion	Division	Parks
Budget			
		2026	2027
		\$	\$
Expenditures		323,000	
Funding			
	Community Public Infrastructure Funding		323,000
	<i>Total Funding</i>		323,000
Description			
Purpose	Expansion of the Lakeview Cemetery through development of new sections to accommodate an additional 200 burial plots.		
Project Details	<p>The Lakeview Cemetery is nearing capacity for burials, requiring additional sections to be developed. The cemetery will be expanded beginning inside the fenced area, ultimately expanding outside of the current enclosure. The expansion will include a new access road, fencing, landscaping and watering option. The expansion looks to add 200 plots to meet demand for burials. The existing plots are reaching capacity, and many have been pre-purchased for future use.</p> <p>Preparing identified areas for expansion will allow the City to expand the current cemetery in a logical and efficient manner. It is expected the expansion will address the needs for burial plots for eight years.</p>		
Operational Impact	Expansion of the existing cemetery anticipates some increases in operations and maintenance costs.		

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Solid Waste			
Project	Emergency Response Plan - Solid Waste Management					
Budget						
	2026	2027	2028			
	\$	\$	\$			
Expenditures	150,000					
Funding						
Formula Funding	150,000					
Total Funding	150,000					
Description						
Purpose	To prepare an Emergency Response Plan for the Solid Waste Facility required under the water license.					
Project Details						
An Emergency Response Plan for the Solid Waste Facility will be prepared to include safety procedures and recommendations on best practices and future investments required to ensure any emergency at the Solid Waste Facility is efficiently addressed. Plan will include consultation on-site work for analysis and update of the existing 2007 Emergency Response Plan. Work also includes assessment of high risk and high likelihood scenarios and response procedures, as well as recommendations on future capital and operational investments to prevent and respond to landfill fires.						
Operational Impact						
Potential operating costs will be linked to the project's proposed recommendations, including employee training and specialized equipment requirements.						

CAPITAL FUND – 2026 Capital Projects

Department	Public Safety	Division	Fire	
Project	Fire Hall Equipment	Budget		
		2026	2027	2028
		\$	\$	\$
<i>Expenditures</i>		58,000	58,000	58,000
<i>Funding</i>				
Community Public Infrastructure Funding		58,000	58,000	58,000
<i>Total Funding</i>		58,000	58,000	58,000
Purpose		Description		
To maintain the preparedness and response capacity for an all hazards approach to meet the Council approved level of service, key functional and reliable equipment is required to protect the safety of our residents and staff. Stewardship of physical resources is a core principle of public safety.				
Project Details				
Equipment for emergency services is maintained and replaced based on best practices for ownership and recommended manufacturer replacement time frames.				
In 2026, the Fire Division equipment asset and equipment replacement schedule includes the replacement of pneumatic airbags for rescue, and the start of the group replacement of semi-automated external defibrillators (AED). Yellowknife Fire Division (YKFD) provides a council approved level of service for emergency medical services (EMS) to the basic life support service level. EMS implements semi-automatic external defibrillation (AED) by primary care paramedics in the delivery of critical lifesaving interventions. These devices are designed to analyze the heart and provide an electrical stimulus (shock) to the heart during cardiac arrest, and/or provide cardiac monitoring in conjunction with symptom relief drug administration.				
Operational Impact				
No changes to operating costs or cost of ownership anticipated through the replacement of the semi-automated external defibrillator equipment.				

CAPITAL FUND – 2026 Capital Projects

Department Project	Public Works & Engineering Fleet Management	Division	City Garage			
Budget						
	2026	2027	2028			
<i>Expenditures</i>	\$ 2,703,149	\$ 2,789,306	\$ 1,054,990			
<i>Funding</i>						
Reserves	2,703,149	2,789,306	1,054,990			
<i>Total Funding</i>	2,703,149	2,789,306	1,054,990			
Description						
Purpose						
To continue replacing and redeploying fleet units according to the City of Yellowknife's Fleet Management practices.						
Project Details						
The reliability of the City's fleet equipment must be maintained to meet the service levels required. The City has a fleet of 128 pieces of heavy-duty and mobile equipment that support Fire and Ambulance, Road Maintenance, Water and Sewer Maintenance, Solid Waste, Parks, Arenas and Administrative functions, as well as 26 stationary engines for emergency power generation and fire pumping capacity. The current replacement value of the City's fleet is \$25.8 million.						
Fleet management practices allow the City to maximize life cycle and properly budget and plan the replacement of all fleet vehicles on a regular basis. These policies and practices help to mitigate risk and repair costs associated with aged vehicles. As vehicles and equipment get older, the operation and maintenance costs of those vehicles increase, with limited resources available for maintenance and repairs. These vehicles should be replaced on a scheduled basis to reduce downtime due to repairs or failures, which could negatively affect the delivery of City services such as snow removal or water/sewer repairs.						
Fleet Management practices allow the City to properly budget and plan the replacement of all fleet vehicles on a regular basis. These policies and practices help to mitigate risk and repair costs associated with aged vehicles. As vehicles and equipment get older, the operation and maintenance costs of those vehicles increase, with limited resources available for maintenance and repairs. These vehicles should be replaced on a scheduled basis to reduce downtime due to repairs or failures, which could negatively affect the delivery of City services such as snow removal or water and sewer repairs.						
Operational Impact						
The Fleet Management practices identify older equipment requiring high levels of operations and maintenance and prioritize replacement. Overseeing the condition, lifespan and usage of equipment in the fleet is key to mitigating risk and repair costs.						

CAPITAL FUND – 2026 Capital Projects

Department Project	Community Services Fuel Tank Replacement – Community Arena and City Hall	Division	Facilities	
		Budget		
		2026	2027	2028
		\$	\$	\$
<i>Expenditures</i>		1,074,000		
<i>Funding</i>				
Reserves		1,074,000		
<i>Total Funding</i>		1,074,000		

Purpose	Description
The removal and replacement of underground fuel tanks at the Community Arena and City Hall.	

Project Details
The engineering and environmental assessment completed in 2025 determined the underground fuel tanks at the Community Arena and City Hall required removal and replacement. Replacement of the fuel tanks will be completed in summer construction season to ensure all heating requirements for the facilities are not impacted.

Operational Impact
The replacement of the fuel tanks will not impact the operations and maintenance expenditures.

CAPITAL FUND – 2026 Capital Projects

Department Project	Public Works & Engineering Great Slave Lake Monitoring Program	Division	Environmental & Regulatory
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	100,000		
Funding			
User Fees	100,000		
Total Funding	100,000		
Description			
Purpose			
The City's water license requires numerous studies and plans to be completed prior to the expiry of the licence in 2037.			
Project Details			
The Great Slave Lake Monitoring Program consists of three main activities:			
1. Investigation of the effluent plume extents in Great Slave Lake, 2. Design of the Monitoring Plan, and 3. Implementation of the Monitoring Plan and Reporting.			
The City is currently completing the first activity, investigation of the effluent plume, in order to determine how best to meet the requirements of the Great Slave Lake Monitoring Program Design Plan. This is a multi-year project requiring a significant amount of data and studies to meet the requirements of the City's water licence.			
Operational Impact			
The operational impact is currently unknown and will depend heavily on the recommendations outlined in the program study. These recommendations may include additional equipment, additional sampling requirements, and increased in annual operating costs.			

CAPITAL FUND – 2026 Capital Projects

Department	Community Services	Division	Parks
Project	Hagel Crescent Park Development		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	270,000		
Funding			
Land Development Fund	270,000		
Total Funding	270,000		
Description			
Purpose			
To design and install an outdoor playground in the Niven Lake, Hagel Crescent new development.			
Project Details			
Project includes groundwork, design and installation of a new playground including safety surfacing on Hagel Crescent. The new playground is added as part of the development plan for the community. The playground will have an anticipated lifespan of 20 years and will be funded through the Land Fund as committed to in development plans for the area.			
Operational Impact			
Operations and maintenance impacts will include ground maintenance, garbage pickup and ongoing upkeep.

Description

Purpose

The City of Yellowknife was successful in securing Federal funding through Canada Mortgage and Housing Corporation to fund the development of affordable, inclusive, equitable and climate-resilient housing. The Housing Accelerator Fund (HAF) includes incentive funding, provided to assist the City in removing barriers and to encourage local initiatives to build more homes faster.

Incentive funding is to be used for prescribed uses, which fall under 4 categories:

1. Investments in Housing Accelerator Fund Action Plans
2. Investments in Affordable Housing
3. Investments in Housing-Related Infrastructure
4. Investments in Community-Related Infrastructure that Supports Housing

CAPITAL FUND – 2026 Capital Projects

Department Planning & Development
Project Housing Accelerator Fund (HAF)

Division Planning & Environment (HAF)

Project Details

An Action Plan was submitted by the City of Yellowknife and forms the basis of the programs to be completed from December 2023 to December 2027. The programs include the following and are required as outlined in the Agreement:

- Housing Needs Assessment
- Infill (Infill Development Promotion and Engagement)
- Density (Allowing increased housing density – units, height)
- Disposal (of City Owned Land Assets)
- Development Process (Implementing a streamlined development process)
- Development Incentives and Disincentives
- Revised Parking Requirements

Additional items approved, however not specifically funded under Housing Accelerator Fund:

- Infrastructure Planning
- Climate Mitigation and Adaptation

The Planning and Development Department will dedicate priority to these items over the next four years. The City of Yellowknife land development areas that fall within the scope of infill and density include: Burwash Drive and Con Road, School Draw Avenue, Niven Drive, Taylor Road, Gitzel Road and Niven Phase 8.

Operational Impact

Agreement signed in December 2023 for expenditures and funding to 2027.

Project	Hydrogeological Study and Groundwater Analysis		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	41,000	101,000	
Funding			
Canada Community-Building Fund		101,000	
User Fees	41,000		
Total Funding	41,000	101,000	
Description			
Purpose			
The City's water license requires a Groundwater Monitoring Plan for the Solid Waste Facility by May 1, 2027.			
Project Details			
The project includes completion of a hydrogeological study of the existing and planned extend of the Solid Waste Disposal Facility and completion of a groundwater trend analysis report. The study and analysis will require extensive annual sampling and analysis of the results. The findings from these projects will update the Groundwater Monitoring Plan moving forward to adhere to the water license requirements.			
Operational Impact			
The project will have ongoing operational expenses to adhere to the water license requirements.

Description

Purpose

To support the City of Yellowknife's ongoing, phased investment in information technology infrastructure, ensuring reliable service delivery while optimizing the lifespan and value of each component.

Project Details

Supporting the renewal of the City's information technology infrastructure, this project enables ongoing, strategic investment across four essential categories: servers and storage, network systems, printers and multi-function devices, and client hardware.

As the City's operations increasingly depend on digital services - from emergency dispatch and elections to transit systems and environmental monitoring - modernizing physical and virtual server infrastructure is crucial. The City's virtualization strategy has been effective in reducing hardware costs and increasing flexibility, but ongoing replacement and upgrades are necessary to meet growing demands for memory, storage, and application performance. Investing in these areas ensures the continuity and reliability of critical services while allowing for future scalability.

Equally important is the City's investment in its communications and connectivity network, which supports everything from workstations and traffic lights to supervisory control and data acquisition systems and emergency voice radios. Incremental upgrades to network hardware and security systems are vital to reducing outages, safeguarding corporate data, and keeping up with expanding operational demands. These enhancements also lead to cost savings, such as reduced reliance on third-party fiber networks and improved cyber resilience through advanced firewalls, spam filters, and staff training. Complementing this, a structured approach to managing printers and client hardware ensures cost-efficiency, consistency, and readiness for newer technologies like Windows 11 and M365, while supporting a growing and increasing mobile workforce.

Operational Impact

The renewal of the City's information technology infrastructure is critical to maintaining uninterrupted service delivery and operational efficiency. When components such as servers, storage, network equipment, printers, and client hardware fail or under-perform, they directly impact staff productivity and the City's ability to deliver timely and reliable services. Proactive and planned investments help prevent costly outages, reduce the need for emergency repairs, and ensure sufficient capacity to meet growing demands.

CAPITAL FUND – 2026 Capital Projects

Department	Corporate Services	Division	Information Technology
Project	Information Technology Infrastructure Renewal		

Without timely upgrades, the City risks increased system failures, reduced performance, higher support costs, and potential impacts on public health and safety. Maintaining infrastructure through scheduled replacements also supports legislative compliance, data security, and disaster recovery readiness, while maximizing service uptime across all departments.

CAPITAL FUND – 2026 Capital Projects

Department Project	Public Works & Engineering Landfill Gas Assessment	Division	Environmental & Regulatory	
		Budget		
		2026	2027	2028
		\$	\$	\$
<i>Expenditures</i>		50,000	25,000	
Funding				
Canada Community-Building Fund		50,000	25,000	
<i>Total Funding</i>		50,000	25,000	
		Description		
Purpose		To undergo a Landfill Gas Assessment at the Solid Waste Facility required under the water license.		
Project Details		A Landfill Gas Assessment will be undertaken to analyze, sample and report on findings of landfill gases at the Solid Waste Facility. Findings will be used to form recommendations incorporated into the Solid Waste Facility design, operations and closure plans including relevant timelines and procedures. The Landfill Gas Assessment will be undertaken over multiple years to follow industry standards and meet the requirements of the water license.		
Operational Impact		The results of the Landfill Gas Assessment is likely to cause an increase in operational budget and monitoring requirements during and post closure of areas of the landfill.		

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Water & Sewer		
Project	Lift Station #1 Replacement				
Budget					
	2026	2027	2028		
	\$	\$	\$		
Expenditures	12,900,000	19,724,000	2,600,000		
Funding					
Other Grants	9,675,000	16,635,000	1,950,000		
Community Public Infrastructure Funding			650,000		
User Fees	3,225,000	3,089,000			
<i>Total Funding</i>	12,900,000	19,724,000	2,600,000		
Purpose		Description			
To continue the multi-year construction of the new lift station on the corner of Franklin Avenue and School Draw Avenue to replace existing Lift Station #1.					
Project Details					
Lift Station #1 (LS1), constructed in 1967, is the oldest of 14 lift stations in the City of Yellowknife (City). The lift station is located near the intersection of School Draw Avenue and Franklin Avenue. The station's catchment area in 1967 consisted of the downtown area and areas east of downtown. Lift Station #7 (LS7) was constructed in 1984 to serve the downtown area, thereby reducing the catchment area for LS1 to the areas east of downtown. LS1 also receives septage hauling from Old Town, Latham Island, and N'Dilo. The station originally pumped to a lagoon at Niven Lake but was redirected in 1981 to discharge into the gravity collection system for Lift Station 5 (LS5) through a common forcemain with LS7.					
The existing lift station has exceeded its useful life and will not sustain increased demand from multi-residential developments in the catchment area.					
The three main components of the project include:					
<ol style="list-style-type: none"> 1. Construction of a new Lift Station #1 while maintaining function of the existing lift station 2. Replacement of a section of forcemain between the new lift station and 44 Street along Franklin Avenue 3. Demolition of existing Lift Station #1 once commissioning of the new lift station is complete 					

Construction of the new Lift Station #1 commenced in 2025 and is scheduled for completion in 2028. Funding was secured in 2025 under the Canada Housing Infrastructure Fund (CHIF) at 75% of the total anticipated project cost.

CAPITAL FUND – 2026 Capital Projects

Department Public Works & Engineering
Project Lift Station #1 Replacement

Division Water & Sewer

Operational Impact

Changes to operating costs are anticipated, however, will evolve from project design components and finalized facility where modernization and efficiencies may be realized. Expectation is that operating costs will be similar to the existing facility.

Community Public Infrastructure Funding	560,000														
Total Funding	560,000														
Description															
Purpose	<p>Outdoor recreation projects will see the installation of equipment and materials to ensure that the City's parks are maintained to a high standard of safety, demonstrate effective and efficient use of resources and provide the community with a variety of activities to promote and enhance a healthy and active lifestyle.</p>														
Project Details	<p>The Pilot's Monument is a tribute to bush pilots and engineers who lost their lives while navigating the challenging Arctic landscapes during the early days of aviation in the Northwest Territories. The monument is not only a memorial but also a popular lookout point, providing breathtaking panoramic views of Great Slave Lake, Back Bay and the City of Yellowknife. Pilot's Monument is Yellowknife's most popular lookout and draws tourists from across the world.</p> <p>Replacement and upgrade of the Pilot's Monument stairs to ensure safety and compliance with the National Building Code 2020. The Pilot's Monument stairs were damaged in 2025 which required immediate repairs. In obtaining building permits for the repair work, the stairs were noted to not meet NBC Code and require full replacement. Code issues were noted with handrail length, uniformity of risers, runs and treads, and slope height and depth of treads, maximum rise and stair stinger depth.</p> <p>The existing wood-framed stair system at Pilot's Monument were constructed in 2000 using wood post foundation sitting in steel saddles, grouted into the bedrock. The engineering assessment on code compliance and condition executed in October 2025 indicated stair treads and landings were worn and were at the end of their useful life.</p> <p>The replacement of the Pilot's Monument stairs project will include engineering, design, accessibility enhancements, and construction to code with all-season improvements. The assessment recommended treads and landings be replaced with fibre reinforced polymer sections or steel grating. These tread selections are suited for all season usage. Full material composite will be determined with the design and planning of the project to ensure code compliance, accessibility improvements and materials appropriate for all-season use. Options of materials usage will be determined in the tender process.</p>														

CAPITAL FUND – 2026 Capital Projects

Department Community Services
Project Park Development

Division Parks

The replacement of the Pilot's Monument stairs will comply with Council's Accessibility Policy and will be designed with accessibility in mind. The design looks to include ramps, wider access points, additional platforms, guardrail improvements and accommodating larger groups.

Operational Impact

No impacts to operations and maintenance expenditures anticipated.

CAPITAL FUND – 2026 Capital Projects

Department Project	Community Services Park Equipment Replacement	Division	Parks
Budget			
	2026 \$ 240,000	2027 \$ 1,151,000	2028 \$ 620,000
Expenditures			
Funding			
Other Grants	80,000	80,000	80,000
Community Public Infrastructure Funding	160,000	1,071,000	540,000
Total Funding	240,000	1,151,000	620,000
Description			
Purpose	<p>Ongoing refurbishment and replacement of amenities in the City's playgrounds and parks. Playground equipment is upgraded on a rotational schedule, while features such as asphalt pads and surfaces are replaced as they show signs of wear and deterioration. This proactive approach ensures that public spaces remain safe, functional, and trustworthy, supporting responsible asset management and maintaining public confidence.</p>		
Project Details	<p>The City of Yellowknife follows a rotational plan to replace aging playgrounds to ensure equipment continues to meet current safety standards and remains enjoyable for community use. Playgrounds are typically replaced on a 20-year life cycle with modern, safe, and engaging apparatus. Neighbourhood consultation is conducted to ensure the replacement reflects the unique needs of the surrounding community. In 2026, the City proposes to replace the Latham Island Park playground. To support high accessibility standards, the new playground will feature a soft-fall rubber tile surface, consistent with other accessible surfaces used across the City. This ongoing investment in outdoor recreation infrastructure supports the City's commitment to strategic asset management, optimizing function, safety, and community service.</p>		
Operational Impact	<p>Playgrounds undergo an extensive inspection process as per the Canadian Playground Safety Institute Program. Replacement of existing outdoor recreation infrastructure will not increase operations and maintenance expenditures.</p>		

CAPITAL FUND – 2026 Capital Projects

Department Public Works & Engineering
Project Patching Program **Division** Roads & Sidewalks

	Budget		
	2026	2027	2028
	\$	\$	\$
Expenditures	370,000	400,000	430,000

Funding

Canada Community-Building Fund	370,000	400,000	430,000
Total Funding	370,000	400,000	430,000

Description

Purpose

To maintain serviceability standards of city streets and sidewalks.

Project Details

The annual patching program identifies and repairs sections of road and sidewalks to extend the life expectancy of the street and ensure it maintains adequate serviceability standards. Often the serviceability and life expectancy of a street can be greatly improved by fixing small, localized issues as they arise and before they become problematic.

Work completed under the annual patching program includes:

- Pavement Patching
- Curb and Sidewalk Replacement
- Asphalt Overlays
- Catch Basin and Manhole Adjustments

Operational Impact

Repairing sections of road and sidewalks reduces ongoing operational maintenance costs.

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Roads & Sidewalks
Project	Paving Program		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	885,000		
Funding			
Canada Community-Building Fund	885,000		
Total Funding	885,000		
Description			
Purpose			
To repair or replace asphalt, concrete and other appurtenances on city streets as required, including storm water infrastructure. This project also installs concrete, asphalt and landscaping (if specified) on newly developed streets in the city.			
Project Details			
The typical design life of pavement is generally between 20 and 25 years, but it will vary significantly due to factors such as traffic volumes, vehicle types, geotechnical conditions, construction practices, and adequate maintenance.			
The construction of new roads generally coincides with the development of new subdivisions. Otherwise, a road is scheduled for reconstruction when it is in poor condition and may be a danger to the public, or when maintenance and repairs are no longer cost-effective.			
Considerations when determining areas of reconstruction include:			
- Condition and age of asset,			
- Recurring maintenance costs,			
- Priority level of roadway,			
- Number of impacted residents, and			
- Underground infrastructure requirements.			
The Paving Program is moving to an alternating schedule with water and sewer infrastructure replacement occurring one year and paving activities the next. The paving projects for 2026 include the Gitzel Street and Matonabee Street Alley including stormwater infrastructure installation by the new Avens Pavilion.			
Operational Impact			
Aging infrastructure has an operational cost of between two and four percent of replacement costs. Replacing this infrastructure will allow the department to focus operational and maintenance activities on other roads, sidewalks and storm water appurtenances in the city.			

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Environmental & Regulatory
Project	Sampling Station Improvements		

	Budget		
	2026	2027	2028
	\$	\$	\$
Expenditures	50,000		
Funding			
User Fees	50,000		
Total Funding	50,000		

Purpose	Description
The City's water license requires extensive sampling including weekly sampling in remote areas.	

Project Details

The City's water license requires extensive sampling including weekly sampling in remote areas accessible only by helicopter. This project will include the construction of safe access to the water's edge at Surveillance Network Point (SNP) Station F3. Sampling at Surveillance Network Point Station F3 requires the helicopter to land on a bedrock outcrop and employees traverse a steep, uneven, rocky terrain to access the location. Employees are required to carry multiple pieces of heavy equipment. It is anticipated that this project will include the construction of multiple staircases and platforms to ensure the safety of staff.

Operational Impact

The operational impact is to help ensure safety of City staff during the required environmental sampling.

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Roads & Sidewalks
Project	Snowblower		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	350,000		
Funding			
Community Public Infrastructure Funding	350,000		
Total Funding	350,000		
Description			
Purpose	Acquisition of a loader-mounted snowblower attachment to improve snow removal efficiencies.		
Project Details	<p>The City currently relies on snow removal through windrowing snow to the middle of City streets and placing snow into trucks using front end loaders. The acquisition of a snowblower would make snow clearing more efficient by gathering and expelling snow through a telescopic discharge chute into nearby trucks for removal. The intention for the attachment is to be utilized downtown and across the City. With climate change impacts, it has been challenging for the City to quickly clear all roads and public areas after heavy snowfall. Having an industrial snowblower attachment will allow the City to better serve residents.</p> <p>The snowblower is proposed as part of the Downtown Services Enhancement Initiative to address concerns over downtown services.</p>		
Operational Impact	The operational impacts are anticipated to be nominal as an addition of an attachment to the fleet.		

CAPITAL FUND – 2026 Capital Projects

Department Project	Corporate Services Technology Investments	Division	Information Technology	
Budget				
		2026	2027	2028
		\$	\$	\$
Expenditures		1,500,000	1,500,000	1,500,000
Funding				
Formula Funding		204,177	1,500,000	
Community Public Infrastructure Funding		1,295,823		1,500,000
Total Funding		1,500,000	1,500,000	1,500,000
Description				
Purpose				
Implement Technology Investments as recommended in the City's IT Roadmap.				
Project Details				
The City finalized its Information Technology (IT) Roadmap in October 2025. The roadmap sets the future vision for technology over the next five years. Our technology vision articulates the future of technology for the City, and our technology principles are statements that help establish and guide fundamental behaviours in alignment with our technology vision. They are meant to enable decision-making as progress is made through various activities and initiatives.				
Investing in technology will allow the City to improve efficiency and cost savings, enhance citizen engagement and services. Having current technology will help automate routine tasks, streamline operations, and make data-driven decisions. This will in turn free up resources and reduce operational costs. It will also provide better tools for citizen communication and service delivery, such as online portals and real-time communication channels like the 3-1-1 system.				
Operational Impact				
Operational impacts will evolve from the technology implemented.				

CAPITAL FUND – 2026 Capital Projects

Department	Community Services	Division	Parks
Project	Tennis Court Resurfacing		
Budget			
	2026	2027	2028
	\$	\$	\$
Expenditures	100,000	200,000	
Funding			
Community Public Infrastructure Funding	100,000	200,000	
Total Funding	100,000	200,000	
Description			
Purpose			
Resurfacing the Somba K'e Tennis Court.			
Project Details			
Resurfacing the Somba K'e Tennis Court to repair aged, cracking and peeling areas that are unusable. Improvements to the Somba K'e Tennis Courts will include increased surface area and repainting of court lines which will expand the use of the court to pickleball enthusiasts.			
Deteriorating as they age, the courts pose safety and capacity issues if they cannot be used. Repairing the existing infrastructure will extend the useful life of the outdoor sport facilities.			
Operational Impact			
Improved surface conditions will reduce the need for future repairs.			

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Roads & Sidewalks
Project	Traffic Light Upgrades		

	Budget		
	2026	2027	2028
	\$	\$	\$
Expenditures	1,935,000		
Funding			
Community Public Infrastructure Funding	1,935,000		
Total Funding	1,935,000		

Purpose	Description
To improve traffic lights and signalized crosswalks to make intersections safer for vehicular and pedestrian traffic.	
Project Details	
There are 19 intersections that rely on traffic lights for reliable vehicular flow, and 10 signalized crosswalks that provide safer pedestrian crossings. With the completion of the installation of traffic cameras at all signalized intersections in 2024, this project will look at additional upgrades to traffic lights and signalized crosswalks to ensure acceptable performance levels.	
Projects for 2026 Include:	
- Traffic signal modernization including detection cameras, new controllers, software implementation and upgrades to communication equipment	
- Internal radio network hardware replacement for traffic lights and supervisory control and data acquisition	
- Replacement of the signalized crosswalk at the intersection of Dagenais Drive and Range Lake Road	
Operational Impact	
Completing upgrades to traffic lights and signalized pedestrian crosswalks on a schedule that aligns with asset management principles will ensure that repairs are being done in a proactive manner.	

CAPITAL FUND – 2026 Capital Projects

Department Project	Public Works & Engineering Transportation Plan	Division	Directorate & Engineering
Budget			
	2026 \$	2027 \$	2028 \$
Expenditures	957,500	957,500	
Funding			
Formula Funding		239,375	
Other Grants	718,125	718,125	
Community Public Infrastructure Funding	239,375		
Total Funding	957,500	957,500	
Description			
Purpose			
To implement transportation plan findings incorporating and addressing other municipal strategies including the Community Plan.			
Project Details			
The City of Yellowknife has undertaken a Transportation Plan in 2025 and anticipate delivering on the finding over multi-year projects. The plan initiated will inform future development and focus strategic capital investments.			
The City's Transportation Plan considers the following:			
- active transportation improvements and future planning of active transportation infrastructure			
- on-going research into public transit improvements			
- traffic light modernization and optimization			
- traffic calming methods for various areas of the City			
- revision of City Standards to incorporate improvements to existing standards			
The City applied for the Government of Canada's Active Transportation Fund under Council direction in January 2025 to fund future investment in active transportation infrastructure. Development of safe and accessible multi-modal transportation, reduced climate impacts and provide for long-term investment. The City has identified many infrastructure needs including equipment to maintain paths in winter, the extension of the Frame Lake Trail and safe and separated bike lanes on Franklin Avenue to Old Town and on downtown and connecting arterial routes. Funding received under the Active Transportation Fund will fund future active transportation infrastructure.			
Operational Impact			
Implementing the findings of the 2025 transportation plan will require a capital investment from the City. The funding applied for under the Active Transportation Fund would cover up to 75% of eligible expenditures.			

CAPITAL FUND – 2026 Capital Projects

Department	Public Works & Engineering	Division	Water & Sewer
Project	Water & Sewer Replacement - Paving		

	Budget		
	2026	2027	2028
	\$	\$	\$
Expenditures	2,475,000		500,000
Funding			
Canada Community-Building Fund	1,937,800		500,000
Community Public Infrastructure Funding	537,200		
Total Funding	2,475,000		500,000

Purpose	Description
To replace asphalt, concrete and other appurtenances on city streets following upgrades to underground water, sewer and storm infrastructure.	
Project Details	
This project restores streets following water and sewer infrastructure upgrades. As part of this work, an evaluation of the street is done against current City Standards to determine if upgrades, such as addition of curb and gutter, sidewalk, or multi-use trail, are appropriate.	
This work coincides with work completed under the Annual Paving Program to best utilize consultants and contractors.	
In 2025, the City upgraded and replaced water, sewer and storm services on Mandeville Drive and 49A, 42 Street and 41 Street Area. These neighbourhoods were left gravel roads following the water and sewer work. The water and sewer paving program will reinstate the roadway infrastructure including asphalt, curbs and sidewalks (where applicable).	
Operational Impact	
Restoration of roadways following water and sewer upgrades provides improved roadways and allows the department to focus operational and maintenance activities on other roadways.

Total Funding	740,000	807,000	807,000												
Purpose															
To address wildfire risk within and surrounding Yellowknife using targeted funding supporting mitigation through vegetation/fuel reduction.															
Project Details															
In January 2025, an update to the Yellowknife Community Wildfire Protection Plan (CWPP) was completed for the City. The City has been authorized by Council to enter into an agreement with Northwest Territories Association of Communities to receive the City's allocation of the federal Disaster Mitigation and Adaptation Fund (DMAF).															
The City has proposed to focus their DMAF funds on municipal land parcels owned by the City as other parcels of federal and territorial lands will be addressed by government agencies separate from DMAF funds. This narrows down the total area being considered for DMAF fuel treatments to 221 hectares, which is still more area than is expected to be covered with the City's DMAF allocation. The City will focus on fuel mitigation within municipal parcels starting with Priority A areas first based on higher relative risk, then move onto treating Priority B areas until the DMAF grant is fully utilized.															
Operational Impact															
The project is anticipated to have some ongoing operating and maintenance costs.															

CAPITAL FUND – 2026 Capital Projects

Department Project	Public Safety Wildfire Protection Equipment	Division	Emergency Preparedness		
		Budget			
		2026	2027	2028	
		\$	\$	\$	
Expenditures			250,000		
Funding					
Formula Funding		250,000			
<i>Total Funding</i>		250,000			
Purpose		Description			
To advance recommendations under the 2025 City of Yellowknife Community Wildfire Protection Plan (CWPP), Recommendation 9 to design and purchase value protection units providing adequate equipment for initial response to wildland and urban interface fire.					
Project Details					
Value protection units containing wildfire protection equipment (portable pumps, hose, sprinklers, fitting, and tools) to protect structures from advancing wildfires have been shown to be successful in reducing losses in communities.					
From the CWPP, based on industry expertise, it is identified City of Yellowknife would benefit from having one or more Value Protection Units, providing the City with adequate value protection equipment for an initial response on a wildland/urban interface fire.					
The important feature is that the wildfire protection equipment can be divided up and deployed to different identified interface priority areas at the same time. Staff can retrieve the required equipment and deploy in the area accordingly. This means the equipment needed is configured when and where it is needed to maximize wildfire protection efforts.					
Operational Impact					
Equipment lifespan is impacted by frequency and complexity of deployment. Post deployment and annual testing/condition assessments will inform replacement requirements.

CAPITAL FUND – 2028 Capital Projects

THIS PAGE LEFT BLANK INTENTIONALLY

RESERVE FUND

The City maintains a number of reserves that enable it to set aside money for specific purposes, thus levelling its expenditures and avoiding the extreme peaks that could otherwise be associated with

major initiatives. They are funded through all of the City's financial assets: cash on hand, accounts receivable, and land held for resale.

2028	198,419	38,467	159,952	24,802	32,301	-7,499

Note:

- (1) According to Section 167 of Cities, Towns and Villages Act, the City's borrowing limit is two times its eligible revenues and its debt service limit is 25% of these revenues.
- (2) In 2022, the City borrowed \$10 million for the Aquatic Centre.
- (3) Debt balance includes balances of long-term debts, financial commitments, and net liabilities.
- (4) Debt service includes payment of debts, commitments and guarantees, and liabilities in the following 12 months less deductibles.
- (5) The borrowing and debt servicing limits depend on the financial position of the City at the time of borrowing in terms of eligible revenues, financial commitments, committed and unfinished capital projects etc. Therefore, the City's actual borrowing capacity has to be finalized with MACA at the time of borrowing.
- (6) The debt balance included the debts related to local improvement costs in the Yellowknife Condominium Corporation No. 8 Mobile Home Park and Stage 2, Phase 7, Niven Lake Subdivision.

TEN-YEAR CAPITAL PLAN

10-YEAR CAPITAL PLAN (2026-2035)

The 10-Year Capital Plan (“Plan”) reflects the capital expenditures that the City is forecasting for the period 2026-2035. The plan identifies the investments that will be required to maintain infrastructure, address environmental issues, and manage growth.

Crucial to the success of any forecasting exercise are the key assumptions used in preparing the Plan.

KEY ASSUMPTIONS

To develop the Plan, information was compiled utilizing the following assumptions:

- The 2026, 2027 and 2028 capital expenditures are based on the draft budgeted expenditures as outlined in this budget document. 2029 – 2035 expenditures are based on the best estimates of required future investments and anticipated funding levels.
- Formula funding and infrastructure funding from the GNWT are expected to remain stable over the ten-year period. Inflationary increases are expected in the formula funding.
- Canada Community Building Fund Funding will continue as promised by the federal government and as outlined in the renewed Canada Community Building Fund Agreement.
- Any additional infrastructure or stimulus grant funding from other orders of government will be used to supplement the annual core funding levels.
- Development costs for new subdivisions and infill of existing subdivisions are included in this Plan and the future development costs will be recovered from the Land Fund and Housing Accelerator Fund (2026 to 2027).

TEN-YEAR CAPITAL PLAN

There are three primary grant sources used for capital funding:

Funding	Source	Description
Formula Funding	GNWT	The Government of the Northwest Territories uses the City's population, property assessment values, and inflation rate to calculate its community points. These points are compared to those of all other Northwest Territories communities to distribute the available funding. The 10-Year Financial Plan is based on the City receiving \$8.3 million in Formula Funding in each year of the plan.
Canada Community-Building Fund	Federal Government	This long-term indexed funding is determined on a per capita basis. It is assumed that the City will receive \$5.3 million plus inflation annually for the next ten years.
Community Public Infrastructure Funding (CPI)	GNWT	This territorial funding is calculated using a base-plus approach. The City is allocated 2% of the total funding available – the base. The City's population and current replacement value of its public infrastructure are used to calculate its community points relative to the total of all communities' points in the NWT. The community points are then used to determine the balance of the CPI allocated to each community. It is estimated that the City will receive \$5.6 million annually for the next ten years.

INFRASTRUCTURE INVESTMENT

The City plans to invest \$231 million over the next ten years to sustain the infrastructure it depends on to deliver services and programs. This will help ensure that the City can safely and sustainably provide core services to protect the health and safety of its citizens, as well as the recreational opportunities that residents

have come to value. This investment will also create a projected capital reserve – expected to total approximately \$122 million by 2035 – for unexpected or unbudgeted costs. These amounts are based on currently-available asset data and may be subject to change.

MAJOR CAPITAL PROJECTS

General Government

The City plans to invest a total of \$4.5 million in Information Technology over the next ten years. This outlay will help build digital resilience to allow the organization connect more effectively with residents, streamline business processes, and increase efficiency across the board.

Public Safety

In the coming years, the City will undertake a comprehensive upgrade of its safety equipment infrastructure. In addition to routine safety enhancements, a strategic investment will be made in wildfire prevention and protection measures.

Through the Northwest Territories Association of Communities (NWTAC), the City has secured pre-allocated funding of \$2.3 million dedicated to wildfire prevention. This funding must be utilized by March 31, 2033. Eligible expenditures will be reimbursed through semi-annual reporting mechanisms established by the NWTAC. Wildfire prevention and protection initiatives are scheduled to commence in 2026 and will continue on an ongoing basis throughout the ten-year period.

The combined investment in safety equipment upgrades and wildfire prevention and protection is projected to total around \$6 million over the next ten years.

Community Services

The Ruth Inch Memorial Pool officially reached the end of its operational lifespan in 2025, coinciding with the opening of the City's new Aquatic Centre on May 5, 2025. The new facility features:

- A 25-metre, 8-lane lap pool
- A therapy pool
- A splash pad
- Enhanced accessibility features

Following its closure, planning has commenced to repurpose the Ruth Inch Memorial Pool building. The 2026 municipal budget allocates funding to initiate a comprehensive community engagement process aimed at identifying potential future uses for the facility. This phase will also include assessment and preliminary planning to determine viable options for redevelopment. Estimated cost of repurposing project is currently \$5.7 million and Community engagement and planning to begin in 2026.

Over the next ten years, the City of Yellowknife anticipates a total investment of \$24.5 million in municipal facilities, parks, trails, and other public amenities that contribute to residents' quality of life

Public Works

Underground Water and Sewer Infrastructure:

The City initiated the replacement of deteriorated corrugated metal sewer pipes (CMP) in 1984, completing the project in 2018. Building on this foundational work, further investment is planned to address aging underground infrastructure, including water and sewer

TEN-YEAR CAPITAL PLAN

systems. Between 2026 and 2035, the City will allocate \$38.4 million toward:

- Replacement of aging underground water and sewer infrastructure
- Upgrades to complex assets such as potable water pump houses and sewage lift stations

Water Delivery System Assets:

In addition to underground infrastructure, the City continues to invest in the buildings and equipment that support the municipal water delivery system. Key milestones include:

- Expansion of the water reservoir (completed in 2008)
- Completion of the Water Treatment Plant (2015)
- Financing: \$23.8 million borrowed for the Water Treatment Plant, with full repayment scheduled by 2028

Lift Station #1 Replacement:

Construction of the new Lift Station #1 began in 2025 to replace the original 1967 facility, which had exceeded its anticipated lifespan. The new station will accommodate increased demand from upcoming multi-residential developments. Project details include:

- Completion expected by 2028
- Decommissioning of the existing lift station upon completion
- Total project cost: \$54.7 million
- Funding: 75% provided by the Canada Housing Infrastructure Fund

Water Source Expansion:

Following a 2023 water source study, the City identified the need for a new Submarine Water Supply Line to enhance flow capacity from Yellowknife Bay. Project highlights:

- Funding secured: \$25 million through the Disaster Mitigation and Adaptation Fund
- Deadline for expenditure: March 31, 2032
- Scope development and planning to begin in 2028

Road Rehabilitation Program:

The City's road rehabilitation efforts are now funded through targeted initiatives rather than long-term borrowing. Funding sources include:

- Canada Community-Building Fund (CCBF)
- Community Public Infrastructure Funding (CPI)
- Formula Funding

Projected expenditure for road rehabilitation from 2026 to 2035 is \$23 million. Additional funding from the Water and Sewer Infrastructure Replacement Program will support road repairs following underground infrastructure upgrades.

Fleet Renewal Program:

To maintain reliable service delivery, the City manages a fleet of mobile equipment valued at \$27 million. A total of \$20.8 million will be invested in fleet renewal between 2026 and 2035 to ensure operational continuity.

TEN-YEAR CAPITAL PLAN

Landfill Expansion and Capacity Planning:

The City continues to implement its long-term strategy to ensure sufficient landfill capacity at the Solid Waste Facility. Construction of a new landfill cell is scheduled for completion in 2025. This expansion is projected to extend the facility's operational lifespan by an additional five years.

Strategic Waste Management Plan:

In alignment with the Strategic Waste Management Plan adopted in 2018, the City remains committed to reducing overall waste generation. The plan sets a target to decrease per capita waste from the current range of 1,200–2,000 kilograms to 500 kilograms by 2030.

Investment Forecast (2026–2035):

To support safety improvements, extend landfill lifespan, and advance waste reduction initiatives, the City has allocated \$3.5 million in funding for the Solid Waste Facility over the next ten years.

Planning and Development

Commissioner's Land Transfer Discussions:

The City of Yellowknife continues to engage in active discussions with the Government of the Northwest Territories (GNWT) Department of Lands and the Yellowknives Dene First Nation regarding the bulk transfer of all available Commissioner's lands located within the municipal boundary. These discussions aim to support long-term planning and development. Any additional resources secured from other orders of government for related initiatives will be used to supplement departmental budgets and project funding.

Climate Action and Energy Planning:

To advance the City's environmental sustainability goals, the ten-year Climate Action Plan was presented to Council in November 2025. This plan outlines key mitigation and adaptation strategies designed to strengthen both municipal operations and community-wide resilience to climate change.

- The original Corporate and Community Energy Plan (CEP) milestones were completed and subsequently updated in 2017 to guide efforts through 2027.
- The new Climate Action Plan builds on this foundation, fostering partnerships and implementing impactful solutions to reduce emissions and enhance climate resilience.
- Planned investment in CEP initiatives from 2026 to 2035: \$5.5 million.

FINANCING CAPITAL PROJECTS

Capital Funding Strategy and Reserve Management

Funding Sources for Capital Projects:

The City of Yellowknife utilizes a diversified funding strategy to support capital projects and reserve contributions. Primary sources include:

- GNWT formula funding
- Government grants
- Property tax revenue
- Water and sewer fees and levies

Also note that a portion of property tax revenue is currently allocated to debt servicing obligations. To ensure long-term sustainability, the City's Ten-Year Capital Plan recommends an annual transfer of around \$2 million from the General Fund to support capital

TEN-YEAR CAPITAL PLAN

investment. This transfer supplements funding received from other orders of government.

Reserve Fund Management:

The City maintains several reserve funds to allocate resources for specific capital priorities. For example, in fiscal year 2022–2023, \$3.18 million was budgeted from the Major Community Facility Reserve (MCFR) to partially fund the Aquatic Centre. Given current economic volatility and fluctuating costs, it is essential to maintain adequate reserve contributions to avoid rapid depletion and ensure financial resilience.

Grant Funding for Infrastructure Replacement:

Grant funding remains a critical component of the City's strategy for replacing aging infrastructure and facilities. Notable examples include:

- \$10.4 million secured in 2021 from the Investing in Canada Infrastructure Program (ICIP) for paving and landfill cell design/construction
- \$41 million secured in 2025 under the Canada Housing Infrastructure Fund for the Lift Station #1 replacement

Strategic Pursuit of External Funding:

To maintain momentum in infrastructure renewal and address the needs of aging municipal assets, the City must continue to proactively identify and pursue all available grant-funding opportunities from federal and territorial sources.

LONG-TERM DEBT

The City has used debt strategically to fund major infrastructure projects:

- 2013: Borrowed \$23.9 million over 15 years for the Water Treatment Plant. This freed up Canada Community-Building Fund dollars for other capital projects and enabled completion of the CMP program by 2018.
- 2022: Borrowed \$10 million to construct the Aquatic Centre.

Current Debt Constraints:

The above referenced two loans have maxed out the City's debt service limit, restricting further borrowing. In addition, as such, the City has no capacity for new loans at this time.

As such, the City plans to avoid borrowing for the next three years to improve its debt service ratio.

SUMMARY

The City of Yellowknife stands at a pivotal moment—not only in how it delivers services and conducts business, but also in its urgent need to renew aging and critical infrastructure. This transformation is made more complex by macroeconomic pressures such as:

- Volatile market conditions
- The accelerating impacts of climate change
- A stagnating tax base

These forces demand bold, forward-thinking action. To meet the moment, the City is readying its today for a stronger tomorrow to ensure Yellowknife remains a top destination to live, work, and visit.

Capital Investment Commitment:

To support this vision, the City plans to invest an average of \$23.2 million annually in capital expenditures over the next ten years.

These investments will:

- Modernize essential infrastructure
- Enhance community services
- Stimulate economic growth
- Reinforce Yellowknife's reputation as a vibrant northern capital
