Letter of Assurance - Form D/E

Assurance of Professional Design and Commitment for Field Review

To:	City	of	Yel	lowk	nife

I. _

Registered Design Professional (RDP) Firm/Agent

hereby give assurance that I will conduct the Design and Field Review of construction for:

Architectural

Structural Engineering

Electrical Engineering

Geotechnical Engineering

□ Mechanical Engineering □ Other: ____

and that components described on plans, specifications and other supporting documents, prepared by the Registered Design Professional in support of the application for a Building Permit, substantially comply with the City of Yellowknife Building By-law No. 5058, as amended from time to time (Building By-law).

∟of

The undersigned hereby undertakes to be responsible for the Field Review of the above referenced components during construction as indicated on the following pages of this Form D/E - Summary of Design and Field Review Responsibilities.

The Registered Design Professional understands that should they cease to be retained at any time during construction, work on the project will stop until a new Registered Design Professional is retained and new <u>Letters</u> <u>of Assurance</u> are filed with the City.

Registered Design Professional of Record				
Registered Design Professional's Name:				
Firm:				
Address:				
Telephone:	Email:			
Registered Design Professional's Seal and Signature:	Date:			
Registered Design Professional's Design Plan No. / Name and revision date:				

Please Note:

1. This letter must be submitted prior to the commencement of construction when required as prescribed by the Building By-law.

2. This letter must be submitted with the stamped plans and specifications before the issuance of a Building Permit.

3. This letter must be followed by Form G (Notice of Compliance and Field Review by Registered Design Professional upon completion of the design work).

Letter of Assurance - Form D/E

Summary of Design and Field Review Responsibilities

1.0	Architectural:
	Indicate responsibilities:
	1.1 Development Permit and conditions therein
	1.2 Fire resisting assemblies
	1.3 Fire separations and their continuity
	1.4 Building height, building area, building classification street access
	1.5 Closures, including tightness and operation
	1.6 Egress systems, including access to exit within suites and floor areas
	1.7 Performance and physical safety features (guardrails, handrails, etc.)
	1.8 Structural capacity of architectural components, including anchorage and seismic restraint
	1.9 Sound control
	1.10 Landscaping, screening and site grading
	1.11 Provisions for firefighting access
	1.12 Barrier-free requirements
	1.13 Elevating devices and vertical transportation
	1.14 Service facilities; horizontal and vertical spaces
	1.15 Functional testing of architecturally related fire emergency systems and devices
	1.16 Interior signage, including acceptable materials, dimensions and locations
	1.17 Review of all applicable shop drawings
	1.18 Interior and exterior finishes
	1.19 Dampproofing and/or waterproofing of walls and slabs below grade
	1.20 Roofing and flashings
	1.21 Wall cladding systems
	1.22 Condensation control and cavity ventilation
	1.23 Exterior glazing
	1.24 Integration of building envelope components
	1.25 Environmental separation requirements (Part 5)
	1.26 Energy Design O City By-law No. 5058 O NECB
	1.27 Building envelope testing - ASRAE 90.1 or NECB requirements
	1.28 Other: Describe
	1.29 Other: Describe

RDP's Initials

2.0	Structural:
	Indicate responsibilities:
	 2.1 Structural capacity of structural components of buildings; including anchorage and seismic restraint 2.2 Structural aspects of foundations: deep foundations shallow foundations surface mount foundations pile foundations on bedrock foundations
	2.3 Qualification of welded steel fabricators and erectors2.4 Review of all applicable shop drawings
2.0	Machaniaali
3.0	Mechanical:
	Indicate responsibilities:

- 3.1 HVAC Systems & Devices, including High Building Requirements where applicable
- 3.2 Fire Dampers including fire stopping of service penetrations at Required Fire Separations
- 3.3 Plumbing systems; including potable water, roof and storm drainage, sanitary drainage systems
- 3.4 Fire Protection Systems; including automatic sprinkler and other automatic fire suppression systems; stand pipes and hose system, evaluation of necessary water supply and demand
- 3.5 Swimming pool mechanical systems including pool circulation and disinfection systems, ventilation in pool areas and chlorine rooms
- □ 3.6 Medical gas piping systems
- 3.7 Smoke control systems in high-rise and care and detention occupancy application
- 3.8 Fire Department Connections & Hydrant Locations
- 3.9 Review of all Applicable Shop Drawings

4.0 Electrical:

Indicate responsibilities:

- 4.1 Electrical transformers vaults, switching devices and motors, including anchorage and seismic restraints
- 4.2 Electrical systems and devices; including fire stopping of penetration through fire separation
- 4.3 Fire alarms; including voice communication system
- □ 4.4 Mechanical interface with controls and alarms
- 4.5 Emergency power and lighting systems
- 4.6 Fire protection of wiring for emergency systems
- 4.7 Review of all applicable shop drawings

RDP's Initials

5.0	Ge	otechnical:
		Indicate responsibilities:
	5.1 5.2 5.3 0 0 0 5.4 4.5 5.6 5.7	Excavation Shoring and underpinning Geotechnical aspects of foundations: deep foundations shallow foundations surface mount foundations on bedrock foundations Control pf ground and subsurface water Structural considerations of soil; including slope stability and seismic loading Backfill and compaction of fill Other responsibilities - Describe:
6.0	Oth	ner - Specify Discipline:
		Indicate responsibilities:
	6.1 6.2 6.3
