

I wish I live in a library

I wish I lived in a library, where I would read all night without mom telling me go to bed

I wish I lived in a library, where I would enjoy books without sibling interruptions.

I wish I lived in a library, where I can dream with books without going to the movie theater

I wish I lived in a library, where I would read all my favorite books from spooky to funny

I wish I lived in a library, where I would travel the world through books and stories

I wish I lived in a library, where I would carve my own reading cave.

I wish I lived in a library, where I would travel back and forth thought time
