## **Transformer Utility Box & Traffic Light Control Box Public Art Program**

The City of Yellowknife is seeking artists with an interest in public art to submit their application for the Transformer Utility Box & Traffic Light Control Box Public Art Program. This call is for painters and graffiti artists as well as artists who draw, photograph and any other artists working in two dimensional mediums.

### **Project Goals:**

The Transformer Utility Box & Traffic Light Control Box Public Art Program is designed to use existing assets in a creative way. Working with community artists allows for these street-level artworks to add vibrancy to our cityscape while creating a sense of place and identity.

If required, artists will be selected by a project team consisting of representatives from the City of Yellowknife, Northland Utilities and the Yellowknife art community. The following should be considered prior to submitting a design concept:

- Designs must not contain any representations of traffic lights, signs or signals.
- Designs cannot contain advertisement or promotion for any business, product or viewpoint.
- Designs must be created in a manner that will deter graffiti vandalism (ie: little negative space).
- Designs may not include any breach of intellectual property, trademarks, brands, images of illegal activity or involve the attachment of any object(s) to the box.
- Consideration should be given to the fact that the finished artwork will be in the public domain and therefore may be vandalized.
- Artists should understand that the finished works will be on functioning equipment that will need repair or replacing at some point in time. Artists must accept the risk that their artwork may be damaged or removed at any time after completion.
- Artwork is temporary and will not necessarily remain on the utility box for the lifespan of the box.
