Accessibility Advisory Committee

Are you looking to make a difference in your community? Why not consider serving as a volunteer member of the newly formed [Accessibility Advisory Committee](#)?

The Accessibility Advisory Committee provides advice to the municipal council on identifying, preventing and eliminating barriers to people with disabilities in municipal programs, services, initiatives and facilities. The committee plays a pivotal role in helping the City of Yellowknife to become an accessible community.

Seven members of the advisory committee must be members of the public that reflect a diversity of the types of accessibility issues faced by residents of our community.

Disability includes a physical, mental, intellectual, learning, or sensory impairment—including an episodic disability—that, in interaction with a barrier, hinders an individual's full and effective participation in society. For more information about the Accessibility Advisory Committee, refer to [Terms of Reference](#).
